The New Fabrics of the Spring Mode

Extraordinary Colors Full of Life and Gayety and Irresistible Witchery Confidently Await Your Approval Here.

Great activity in silk textiles and wool weaves gives evidence of a glorious spring season almost here. The wise are getting their purchases made and sewing done ahead of its opening.

Never were the fabrics shown of such alluring colors; never were there such splendid lines to choose from; never such originality as is evidenced in these beautiful spring materials.

The readjustment of prices to the new low levels is welcome to all.

This, combined with such superb qualities as we show, such splendid selection of colors and designs, makes shopping this year a real pleasure.

Every day of March will see more activity as the Easter Season draws near. Sounds good, doesn't it—the commencing of Spring!

To go into the detailed excellence of all the fabrics we have collected after great care in selection would be impossible. A "close-up" is the only satisfactory way. So we invite you to look them over, judge their value, see for yourself their rare beauty and newness.

In connection with this we announce that we have been able to get individual dress lengths for those who like and insist on exclusiveness in their dress, especially is this so in high grade fancy materials. Hundreds have already made their selection. We urge you to do the same if you would have the best.

With the return of our milliners from N. Y. we are pleased to announce a special Presentation of the new MILLINERY

While the uncompleted redecoration of our Millinery section prevents us from holding our formal Spring Opening, the hundreds of new arrivals will be used in a special presentation Saturday.

To greet the Spring and meet with the needs of the new Spring wardrobe, we have assembled a collection of Paris-inspired trimmed hats that enable the women of limited means to purchase charm and beauty. Come in Saturday and try on some of the hats that await your choice.
