

ENCOURAGING

INDUSTRY AND THRIFT, WE CONSIDER A MOST WORTHY AIM

ECONOMISTS agree there are just two essentials in the production of wealth—labor and self-denial. No amount of industry without economy and no amount economy without industry will result in accumulation.

IT IS THE POLICY OF THIS BANK

to encourage thrift and economy along practical lines. People using our Bank Account Plan find it practical in operation, the tangible results well worth while. No account too large, none too small, to receive careful consideration and protection.

CATALOG TIME

Where now the winds of March are blowing the garden sassa will soon be growing. My muse shall sing man's yearly need for onion sets and spinach seed, shall sing likewise that gay deceiver which stimulates our garden fever, the subtle seedman's catalog whose charms our better judgment fog. Its pictured beets and peas and chard were never grown in my back yard. My radishes are not so red, my punkins not so widely spread, my lettuce refuses to head. The seedman is an optimist and loves the brighter side. I wish he does not show in colored plate the woolly worms that lie in wait. No dark-brown spots like mine are seen on his prolific greenpod bean. And yet, for planting all agog, I love that yearly catalog. I hail with joy each harmless fable and plant new squashes for my table. For the my cukes be bitter things my cabbage full of worms, by jings, and all my snap beans full of strings, still to my heart the brown earth calls, and all her summer springs and falls shall find my legs in overalls; shall find me spading loams and sand with several blisters on my hand.

Mr. and Mrs. Frank Halsey are visiting on Davis Hill.

BIG FURNITURE DEAL

Mr. W. L. Carter, of Wellsville, who recently purchased a complete new stock of furniture and floor coverings and after opening the doors of his store to the buying public, decided, owing to changed conditions in his business affairs, to forego his plans (amounting to twelve thousand dollars) at once. Rockwell Bros. & Co., Wellsville, together with Tuttle & Rockwell Co. of Hornell made a cash offer for the entire stock which was accepted. These two concerns with their wide and extensive outlet, fair prices and liberal terms co-operate in this way in much of their buying especially of furniture and floor coverings; thus enabling them to commend the very lowest prices attainable. INTERESTING GRANGE SESSION

Andover Grange held a very interesting session Wednesday evening Mr. and Mrs. Ernest Orvis, Mr. and Mrs. W.-N.-Rice, Mr. and Mrs. R. A. Pease and Miss Helen Pingrey were initiated into the first and second degrees. The degree team received many compliments on their work and especially the new regalia, which was a surprise feature. An interesting program was given. The report from the State Grange by W. W. Pingrey received especial commendation. An original paper by C. E. Burdick was full of pep and provoked much merriment. A piano solo by Miss Ruth Hyland was also enjoyed after which a guessing contest took place which was won by Mrs. Mary Warfield and Harry Smith, over which they were elated. Mr. and Mrs. Palmiter, of Alfred, were guests of the evening.

Tidbits From Our School

ATLAS PORTLAND CEMENT

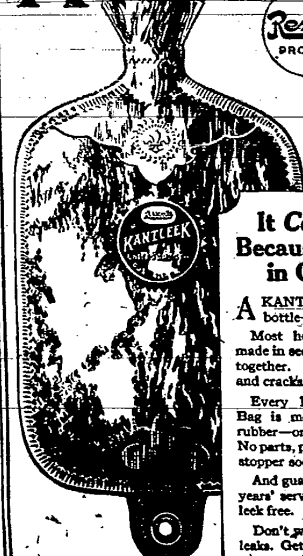

A NEW industry comes to town, or an old one moves into new and better quarters. Hence is a credit to the community and to the merchant who thus gives evidence of his progress. One man has played a possibly unexcused, but no less essential part in this community improvement—your building material dealer. His investment in a slow moving stock, building material, is a definite pledge of his belief in the community. His stock and ability to deliver promptly enable you to take advantage of weather conditions and rush unexpectedly needed construction. Your building material dealer's judgment deservedly has weight. He is the man who has called Atlas Portland Cement "the Standard by which all other makes are measured."

KANTLEEK

It Can't Leak, Because It's Made in One Piece

A KANTLEEK is built like a bottle—all in one piece. Most hot-water bottles are made in sections, then cemented together. When cement dries and cracks, the bottle leaks. Every Kantleek Hot-Water Bag is moulded of pure soft rubber—one continuous piece. No parts, patches, cement. Even stopper socket is moulded in. And guaranteed for a full two years' service—or a new Kantleek free. Don't wait until your old bag leaks. Get a Kantleek. Your old one may break open tonight.
