STRAWS SHOW HOW THE WIND BLOWS

Democratic Landslide in Spring Municipal Elections Felt in Five More States. Many Others Also

Recent municipal elections in Rhode Island, Maryland, Connecticut, West Virginia and Missouri give renewed evidence that this is a Democratic year.

Burreville, R. I. elected an entire Democratic ticket by pluralities of 500, overturning 1920 Republican pluralities of 800.

Hagerstown, Md. elected a Democratic mayor by 360 majority, overturning a Republican affiliated majority of 700; also two councilmen. Hartford, Conn. went Democratic by a record vote, reversing a Republican victory of two years ago. The Democratic candidate for mayor received 3,575 majority and the Democratic candidate for Controller defeated a Republican who has held the office for 28 years. The Board of Assessors is Democratic for the first time in twenty years.

Benwood, W. Va., answered the question "What's in a name?" by electing James Cox, the Democratic candidate or mayor over a Republican who had held the office for four terms.

Old Missouri showed 'em when Kansas City elected Frank Cromwell mayor (Dem.) by about 12,000 majority and the balance of the Democratic ticket by majorities ranging from 1,000 up. Jefferson City followed suit with majorities averaging 500, electing five aldermen, giving the new board seven Democrats and three Republicans. Five other Missouri cities elected Democratic mayors - Macon, Butler, Fulton, Carthage and Sedalia.

The significance of these elections is found in the fact that they report the results of other municipal elections in every section of the country. They indicate as well as anything can indicate the trend away from the reactionary methods of the leadership of the Republican party and that Republicans who are more interested in the welfare of their country than they are in partisanship are joining hands with the Democrats in an effort to restore Democratic economy and intelligence in government. Democratic municipal victories in a Congressional year have always been the true signs of Democratic nationalistic statistics.
