

WHAT THE CENSUS TELLS

Every ten years our government spends millions of dollars to take a census of the people. It is a costly undertaking, but here are some of the facts proved: Ninety per cent. of the men engaged in active business fail to reach old age with a competence. Nineteen out of every twenty persons fail to provide for their old age or for their families. Eight million women are forced to earn a living. Thirty-five per cent. of the widows are in want. Eighty-two per cent. of the children of the country are forced to leave school before completing the eighth grade to aid in making a living for the family. "Save While You May, the Morning Sun Does Not Last the Whole Day."

REPORTER ADMITS HE THREATENED ANDERSON

Held in \$10,000 for His Letter to Anti-Saloon League Superintendent

New York, April 18. — John V. Sutherland, a reporter for the Wall Street Journal, was held in \$10,000 bail by Magistrate Simpson in Tombs Court after he had pleaded guilty to writing and sending a threatening letter to W. H. Anderson, state superintendent of the Anti-Saloon League. The case will be tried in special sessions. "If your words and actions henceforth are not silent, and if you do not take your place in the body of American citizenship, we mean to kill you without the slightest compunction," said the letter which Sutherland admitted sending to Mr. Anderson on March 22nd last. In court the prisoner said he had not intended to carry out the threat. Donald R. Baldwin, assistant district attorney, said he had learned that the prisoner formerly was a member of the 105th infantry of the 27th division and had been severely wounded while overseas. The magistrate in fixing the high bail said he believed Sutherland had a temporary aberration and that he wanted to prevent the prisoner from doing any violence.

JOHN E. CANNON & COMPANY

BATH ROLLER MILLS DAMAGED BY FLAMES

Firemen Confine Blaze, Altho Nearby Property Was Threatened

Bath, April 18. — The Bath Roller Mills in West Steuben Street, were damaged by fire early last evening. The damage to machinery and building, with the loss on finished stock and unground grain will run from \$25,000 to \$30,000. The mill will be out of operation from three to five months before necessary repairs can be completed and new machinery installed. The fire was discovered in the third floor of the building, and altho the firemen succeeded in confining the blaze to that floor, the deluge of water pouring down thru the building caused as much damage to machinery and stock on the lower floors as the fire above. For a time, nearby property was seriously threatened as a high wind at the time prevailed. The Bath Roller Mills are owned and operated by James Faucett, Jr.

REBEKAH DISTRICT MEETING
