

WHAT THE CENSUS TELLS

Every ten years our government spends millions of dollars to take a census of the people. It is a costly undertaking, but here are some of the facts proved:

- Ninety per cent. of the men engaged in active business fail to reach old age with a competence.
- Nineteen out of every twenty persons fail to provide for their old age or for their families.
- Eight million women are forced to earn a living.
- Thirty-five per cent. of the widows are in want.
- Eighty-two per cent. of the children of the country are forced to leave school before completing the eighth grade to aid in making a living for the family.

A FINE ENTERTAINMENT
 Given Under Auspices of the Physical Training Class Andover High School

The physical training class exhibition of the Andover High School at the Auditorium, Thursday night, was fine, and well patronized. It was a most agreeable surprise to all. Few, if any, of the parents who have children in our school had any correct idea of the work being done by the physical training class of our school under the efficient instruction of Miss Litchfield, and when they were permitted to see for themselves what had been accomplished they were simply amazed.

The work of the young people showed the effect of their thro training and was a most pleasing entertainment. Results speak louder than words and Miss Litchfield and the Board of Education of Andover High School are to be congratulated on the manner in which the several exercises were staged Thursday evening.

CASE DISMISSED
 Court of Appeals Reverses Action and Says John Burns Not Entitled to Property

Hornell, April 23. — Yesterday the Court of Appeals handed down decision in the action of John Burns and wife of Oak Street, against the devisees of James Hasley, dismissing the action with costs against Burns in all courts.

The action was brought to compel the devisees of James A. Hasley to deed and transfer the house and furnishings to said Burns. The plaintiff proved that James Hasley made a verbal agreement with John Burns and his wife by which they were to dispose of their business in Andover and come to Hornell and support Mr. Hasley during his lifetime, and in consideration thereof Hasley was to give the Burns the house and furnishings on Oak Street, Hornell. The devisees of Hasley, thru their attorney, John Griffin, defended the action on the ground that the contract was not enforceable. The action was tried before the late Justice Benton. He decided the action in favor of Burns and directed the executors to convey the property to Burns. John Griffin appealed the case for the defendants to the Appellate Division of the Supreme Court and argued the case that Court decided that Burns was entitled to the property. One of the judges dissented. The defendants again appealed, this time the defendants were successful. The Court of Appeals reversed the judgments of both the lower courts and decided that the Burns were not entitled to the property, that the contract was void and that Burns had in pay the costs of the three courts. Mr. Griffin is to be congratulated on his victory.
