Frosts are predicted for this locality every month this summer by the redskin.
—A large barn, on the Francis Rice farm south of Cuba village, was destroyed by fire the night of April 19th. The fire was a disastrous one, 12 head of cattle, one horse, one mule, nine hogs, and 100 hens perished in the flames. A granary containing a considerable amount of grain, farm implements and wagons were also burned. The cause of the fire has not been known. A strange man had been seen near the barn the night before, but as he later went away toward the woods, nothing was thought of it at the time.
—Gov. Miller has signed the measure prohibiting the manufacture or sale of filled milk in New York State. Filled milk is a product made of milk from which the butterfat has been removed. The chief product of New York State farmers in an industry valued at \$200,000,000 annually is taken from milk and a cheap product produced in foreign countries with cheap labor is substituted. Enactment of this bill into law is a great victory for New York State farmers. It gives protection to their industry which is needed. In 1920 more than 85,000,000 pounds of filled milk were manufactured, robbing farmers in that amount of their legitimate market for milk.
