SIGN-BOARDS ON THE UP-ROAD

Hamilton B. Williams

Forth into the world are going thousands of boys and girls from the schools. If I had the privilege of speaking to each one personally it would be my honor to say that the fear of the Lord is the beginning of wisdom. Fear, of course, carries the idea of recognition of a First Cause who resides in His Universe. Reverence is due Him. But the expansion of wisdom conceives the First Cause to be One with whom we may be friendly. But God is more than Friend. He is the Comrade of every human soul along all the trails of the universe, energizing as a god should for the ultimate triumph of His life project.

Think of God as the Infinite Engineer and artist and ourselves as fellow-workers and however daring this may seem, it is true. The very Being of God is such that a failure in His project is unthinkable.

Browning, better than all others, crystallizes the human situation. All that I dream but cannot be, all that men expect in me — these I am worth to God. God is the Artist of the potentials to be revealed, the discoverer of ourselves to ourselves, the Builder of the possible Life. Shall we who labor to develop in the human soul its possibilities be more godly than God? If he withhold His infinite hand from a task that should be within a God's labor what's a God for?

Let the boys and girls go forth into life convinced of the fact that God is the engineer and artist of the human project and scarcely shall this fact fail to evoke the honor and glory in us with which we are crowned! That will mean that the boys and girls shall go forth visioned with truth to the service of humanity, which service shall have to do with undevelopment!

To make the Good, the True, the Beautiful a social fact is our imperial obligation.

That is Religion.

PROPERTY OWNERS INVESTIGATE!

Every property owner who will take time to investigate fire insurance companies as to strength, reliability, reasonableness of rates and who wants the best protection obtainable, will realize more in dividends for time expended for investigation than he will for the same amount of time and money spent investigating available profits in other commodities.

ANTS EATING WOODWORK OF ILLINOIS DWELLING

Millions of white ants, which rapidly are completing the destruction of the home of C. T. Sprague, west of Clinton, Ill., have extended their operations to the home of C. F. Weld across the road.

The Sprague family has been forced to vacate. All the hardwood flooring of the home has been honey-combed and sills and weather-boarding have been so thoroughly penetrated that pieces collapse when handled.
