—Lives of several persons were endangered Wednesday night, on the state road between Almond and Hornell, when automobiles from both directions and a horse and buggy got all tangled up.

—Harold Arnold, Earl Connors, Harry Withey and George Brennan, all of Wellsville, figured in an auto accident Sunday night near Stearns' crossing, below this village. Withey's car was in the lead followed by Arnold and Brennan driving separate cars.

—Earl Connors, going east, met the party and in attempting to pass his car side-swiped the one driven by Arnold throwing the car across the road. The second car was too close to stop and a pile-up resulted. Arnold suffered severe bruises and five broken ribs. The cars were badly damaged.

—The interesting information that a deal was pending, whereby the Dairymen's League would build and operate a plant in Hornell was given out Wednesday. A Center Street site, however, will not be considered, as one of the initial arrangements for success, the Dairymen's League says, is that the plant be located on a railroad, railroad switch or immediately adjoining. President Bert Whiteman of the Steuben Branch of the Dairymen's League of near Canisteo, accompanied by Mr. Ranger left Hornell to-day for Syracuse where they will confer with state officers of the Dairymen's League toward locating a plant in Hornell. Hornell is gradually forging ahead in many ways and the erection of a big plant here by the Dairymen's League is bound to boost the milk industry in Hornell and vicinity. Wherever the plant is built, the location will be easily accessible to farmers and dairymen all thru this section, Mr. Ranger says.

—The J. P. Cannon Clothing Store has been brightened by a fresh coat of paint.

Of every one hundred of to-day's shoppers, seventy-five visit the stores whose ads have made the strongest appeal to them.

—A comfort station at Hornell is being planned by the live wires of that city. The proposition is to be presented to the voters to raise from \$10,000 to \$12,000 for the purpose. It will undoubtedly be built in the park.

—Louis, son of Mr. and Mrs. Bartley Joyce, of Chestnut Street, shot himself in the palm of his left hand, with a 22-caliber blank cartridge, the Fourth. The wadding from the cartridge penetrated about two inches into the hand. Dr. Grenolds dressed the wound and states that, barring infection, the hand will be alright.

—A man and a woman with two small children being trundled in a wheel barrow fitted out with an oil cloth top or hood to protect them from the sun and rain, created some curiosity as they passed thru Main Street Sunday afternoon. The couple claimed to be J. S. Leddy, wife and children, who left Orlando, Florida Oct. 31st, 1921, and were walking to some point in Indiana, their only means of maintenance being derived from an occasional job of painting matt boxes, done by the man, and the sale of post card pictures of the party, and outfit.

RELIABLE FARM HELP

Farmers in this county who have experienced considerable difficulty in getting reliable farm help, are learning with relief that they can secure such help again this year, thru American Land Service, whose headquarters is at 25 West 43rd Street, New York City.

This organization has steadily opposed the shipping to farmers of the hobo element that drifted into New York City during the winter.

Only men and families who can show good records are accepted for placement by Land Service, which is a free employment service to both farmer and farm workers.

Applications for help thru this organization should be accompanied by such information as type of man required, work to be done, living conditions and wages.

All requests should be addressed to the New York office at the above address.

Lacking in Consideration

As long as the grass in a Chicago public park is healthy and green the citizens seem to look upon it as some sort of garden and keep off of it as the signs command them. When it begins to die out, however, their respect for it instantly vanishes.

A man in a hurry started one day to cut across a yellow patch in the upper park, but was stopped by a policeman.

"What difference does it make?" demanded the citizen. "The grass is half dead already."

"Sure," said the indignant officer "if you had a six-foot worm in your back walkin' on his stomach?"—Harper's Magazine.
