WARREN; "Many friends in Cuba and other places will learn with deep regret of the passing of the dear and lovely woman who is the subject of this obituary; Frances E. Warren was born in Little Genesee, Oct. 18, 1854, the daughter of Ezekiel and Nancy Burdick Crandall; After her marriage to Orlando J. Warren she came to Cuba and, except for a few years at Alfred, was always a resident of North Cuba and this village until about five years ago, when she went to Westley, R. I., to live with her brother, Ira Crandall, and care for his invalid wife; Mr. and Mrs. Warren had two children, William, the well known merchant of this village, who died some two years ago, and a daughter, Helen, who passed away about twenty years since. Her husband died in 1903; Mrs. Warren had been ill since last January and about a month ago was brought here, where she had wished to end her days. She had been critically ill ever since with cardiac dropsy and her death was a relief from suffering; Besides her brother, above mentioned, Mrs. Warren also left her step-mother, Mrs. E. R. Crandall, of Little Genesee, and a sister, Mrs. Mary A. Crandall, of Andover, who has been here with her for some time; also her two granddaughters, Mrs. Donn Wright and Miss Helen Warren; Mrs. Warren died at the home of Mr. and Mrs. H. F. Wilcox, Tuesday morning, July 11th. The funeral took place at the home of her daughter-in-law, Mrs. G. S. Peterson, Wednesday afternoon, being conducted by the Rev. E. F. Loofoora of Little Genesee, pastor of the Seventh-day Baptist Church in that village, of which Mrs. Warren had always been a member; Mrs. Warren had led a wonderfully unselfish life, one of devotion and service to others. She had seen much trouble and suffered many losses, but she had an unvarying cheerfulness and her pleasant and charming ways endeared her to all. The many letters and messages from friends which she received in her last days expressed the deep love and gratitude which she had won from all and the unusual esteem in which she was held. — Cuba Patriot; Some unthinking people may confuse you by arguing that the store which has no "advertising expense" can sell more cheaply! You know, however, that — all stores have certain fixed expenses in common: These include rents, lights and heat, clerks and employees. These expenses have to be earned. The store that makes but a hundred sales a day must earn these expenses thru the profits on these 100 sales. The store that, by adding something to these fixed expenses by advertising, makes 500 sales a day, may prosper on a smaller per-sale profit! Would you rather pay one hundredth part of a fixed sum — or one five-hundredth part?

On Big Scale. The Yellowstone remains the largest of our national parks and contains the greatest variety of scenic wonders. Everything within its more than 2,000,000 acres is on a gigantic scale. Distances are great; canyons are of terrifying depth; mountains tower to monstrous heights. The geysers, the "painted pots," the hot springs, are of never-ending interest to tourists.

Birches in Europe. The birch figures largely in the life and legends of the European races as well. The fables of the Roman magistrates was a bundle of birch rods, the symbol of authority. Through this use it may have come down to the schoolmaster. Indeed the birch seems to have been, in primitive times, in many countries the symbol of authority and of power.

"Haberdasher." One of the most puzzling words is haberdasher. This was formerly a peddler who went round to fairs selling ribbons, buttons, and other small articles, which he carried in a sack. His name comes from two old words, haber, meaning 'cots, and tasche, a sack.

Supplying the Family Table Is Often a Problem

The thrifty housewife buys carefully. Buying carefully can only be done where there is a large variety from which to select. That is one of our leading specialties — keeping a variety of foodstuffs so large you can eat anything your appetite craves. By keeping only a sufficient quantity of each article on hand to meet all current demands we are enabled to sell you at all times foodstuffs that are absolutely pure and fresh, thus assuring you the maximum of nutriment at a minimum of expense.

Getting into the habit of reading ads, and of making purchases in the light of such reading on the information and on the impressions so gained — is hard for some folks. But getting out of such a habit, once formed, would be unthinkable to them.
