

Are You Like Other People?

Do you require three meals a day? Most people do, and besides they need clothes and shelter and they like to take in a show or go fishing occasionally. Even those who are too old to work continue to want these things. Face the facts. There will be an old person in your shoes some day. Be fair to him.

The successful man is the one who always plans ahead for danger. Only a fool thinks it will forever be smooth sailing. The best guarantee you have against bad luck is an INTEREST ACCOUNT.

Don't spend it all. Save all you can while you can.

Clarkson, of West Greenwood, were Sunday visitors of Mrs. Margaret Fisher, at the farm home on Hartsville Hill.

"Y" BOYS GET CONCESSIONS

Will Serve Coffee, Candy, Fruit and Popcorn at Picnics.
The people of Allegany County, who attend the Farm Bureau picnic to be held in Wellsville on August 10th should come prepared for a good hot cup of coffee served by the "Y" boys of the county. The large dining tent used at Camp Shenawanna is to be set up in Island Park for the service of the picnickers.

A group of boys organized for the purpose while at camp, aided by a large number of other boys from all parts of the county, are to have the sale of coffee, candy, fruit and popcorn. In order to insure the best service, the boys have invited Fongardman, Louis Minte and Howard Green to co-operate with them in this business project.
Fifteen boys representing eight communities of the county held a conference while in camp and voted to secure these concessions for the purpose of starting a fund for increased camp equipment and facilities. Any equipment secured in this manner will have a greater meaning, because of the sense of ownership cultivated in the minds of the boys by the effort they put forth.
While in camp this year during the month of July the boys have built the following items of equipment with their own hands: A kitchen 14x20 ft. in size, three dining tables that have served the entire camp in the large mess tent, a cooler built of bricks, this cooler has preserved all the supplies of the camp without the purchase of a pound of ice; four sleeping bunks, sleeping eight boys each, a diving platform at the swimming hole and raised a flag pole which stands forty-one feet above the ground. Not one cent has been paid out for carpenter work or construction work of any kind. The boys wish to go on with this interesting piece of work and have taken the above concessions as a means of raising a fund with which to purchase lumber and other materials needed.
Keep your eye on the "Y" boys at the picnic and aid them in this effort.

SATURDAY, AUGUST 5TH. LAST DAY OF SALE

Wellsville's Community Sale, a Grand Bargain Festival, to Close on Saturday.
The Big Community Sale now being held by the merchants of Wellsville is living up to its advance notices as the biggest bargain event in years. If you have not been there, you should go right now. It will mean money in your pocket, whether its Paint, Lumber, Tools, Clothing, Dry Goods, Shoes, Groceries and you will certainly save money and get acquainted with up-to-date stores equipped to fill every need. Thousands have voiced their approval of this sale, and still the merchants are presenting wonderful goods at astonishingly low prices.
Saturday, August 5th, is the last day, so you are urged to hurry.—Advertisement.

New things to wear — for all sorts of folks — are described, discussed and priced in to-day's ads.

Absolutely Fresh Water "Direct from the Well"

Every farm home can have absolutely fresh water delivered BY MACHINERY to faucets anywhere about the house, barn, stables or yards. With the MILWAUKEE AIR POWER WATER SYSTEM, there is no water storage tank—the water comes direct through the pipes to the faucets and is practically as fresh as if dipped right out of a spring. With this system you can have water

Any Time of the Day or Night

The pump works only when a faucet is opened, but it is on the job all the time ready to work—24 hours a day and 365 days in the year. Only a little attention is required to run the engine and keep the pressure in the air tank at the proper point. Where an electric motor is used the system works entirely automatically.

Several Pumps
The MILWAUKEE SYSTEM enables you to pump water from several sources if you wish—well, cistern, stream, spring or lake. There must be a pump in each of these places, but one power equipment—engine (or motor), compressor and air tank—operates all the pumps.

Fire Protection
By our special AIR PRESSURE REGULATOR, the pressure can be changed instantly from that required for ordinary work (25 or 30 lbs.) to 100 lbs. for fire protection. Insurance does not prevent fires. And it pays for only part of the loss. A good water system prevents a lot of fires.

A MILWAUKEE AIR POWER WATER SYSTEM is the best investment any farmer can make. It saves a lot of time, cuts out a lot of hard work both in the house and barn, adds much to the comforts of the home and protects from fire.

The price of a water system for your place probably will be less than you think. It costs you nothing to learn all about it. Call and see us or telephone.

BLACK FLAG

Is the best remedy known for killing Flies, Roaches, Ants, Mosquitoes, Bed Bugs, Fleas; Lice on Plants, Poultry and Hogs.

BLACK FLAG

Is not a poison. It kills insects when they breath it or come in contact with it. If positively will not harm mankind or domestic animals, even if eaten.
