'Old-fashioned' Ruskin. Nevertheless, though the future may prefer to read Ruskin in selections, it is not conceivable that the present affection to despise so great a writer and so fine a spirit will persist.

Too Much. A very stout man mounted the scales in a downtown drugstore the other day and dropped a penny in the slot.

United States Mints. There are five United States mints at Carson City, New Orleans, San Francisco, Denver, Philadelphia, the home of the first government mint.

The Word Cockle. 'To warm the cockles of one's heart' has several strange derivations. The word cockle is said to have been derived from the resemblance in shape between a cockleshell and a heart.

Turned Down. 'Boss,' whined the beggar, 'speak in' as man to man, I'm hungry.' 'Friend,' replied the pedestrian, 'speaking as man to man, I have just one dime left for car fare and I propose to see that a greedy corporation gets it.'

'Bever Days.' 'Bever' is a drink between meals. At Eton college, England, they formerly had 'bever days,' when extra beer and bread were served during the afternoon in the college hall to students and any friends whom they had invited.

Unanimous. 'Have the ladies of the jury brought in their verdict yet?' 'You mean 'Guilty' or 'Not Guilty'?' 'Of course. What else?' 'They decided that the woman in the case was a perfect frump without leaving the jury box.'

Sahara Once Had River. A French engineer claims to have discovered evidence that a great river once flowed northward across the Sahara desert into the Mediterranean, its banks being lined with prosperous communities.

Fellow Sufferers. 'Dryden—'No, sir; I don't know what whisky tastes like.' 'Wetmore—I understand. Since we've been reduced to this synthetic stuff I, also, have forgotten what real whisky tastes like.'

Given New Jaw. A French surgeon named Viala, whose lower jaw was blown away by explosives in the World war, has been reconstructed with a complete set of false teeth and a rubber tongue. He is now able to talk and sing.

Chinese a Cooking Nation. The Chinese are a nation of cooks. There is scarcely an individual in their vast community who is not more or less competent to cook himself a respectable dinner.

Will Never Grow Old. A young woman can't help thinking that she will never grow old, because long before the time comes for that there will be a change in the laws of nature.

Fond Relative. Alice—'Do the doctors give you much hope regarding your rich uncle's illness?' Bob—'No, they say he may live for many years yet.'—Houston Post.

Barking Dog Owner Jailed. When a dog barks at night in Japan the owner is arrested and sentenced to work for a fixed time for the neighbors whose slumbers may have been disturbed.

She Saw Him. First Sorority Sister—'I'm sorry I couldn't have tea with you, dear, but you see—I had a class.' Second Sorority Sister—'Yes, darling, I saw him; some class!'

Life as I See It. Life is not a sprint, but an obstacle race. You might as well qualify for it on that basis.—Louisville Courier-Journal.

British Have Butterfly Farms. In England there are several farms devoted entirely to the cultivation of butterflies and moths.
