New York orange stock \$2.35 to \$2.50 in New York City, Penna., Indiana and Washington yellow, \$2.25 to \$2.75 in Chicago and leading Eastern cities.

Dairy Products

Butter markets firmer than a week ago. Receipts heavy but active trading at lower prices prevailing has helped avoid accumulations. Production showing some signs of decreasing. Closing prices 92 score butter: New York 34 1/2c; Philadelphia 35c; Boston 32 1/2c; Chicago 33c. Cheese markets barely steady. Advances in Wisconsin market entirely supported by trading in distributing markets, which continued to be on a conservative basis. Prices at Wisconsin primary cheese markets August 12: Twins 18 1/2c; Daisies 18 1/2c; Double Daisies 18c; Young Americas 19c; Longhorns 19 1/2c; Square Prints 21c.

Hay

Demand for hay, except of best grades, dull in Eastern markets. Poor hay selling slowly. Lighter receipts, caused by railroad situation, strengthened hay market in Central West. Prices firm to \$1 higher. Reports of country loadings decreasing. Quoted Aug. 12: No. 1 timothy, Boston old \$21, New York old \$31, Philadelphia new \$19, Pittsburgh \$19 Cincinnati \$17, Chicago \$23, Atlanta \$23.

Feed

Mill feeds quiet, only scattered buying for immediate requirements noted in most markets. Bran weak. A few thousand tons of bran for Sept. Oct. shipment, sold at \$16.50 Chicago. Other wheat feeds steady. Linseed meal demand light, market weak. Cottonseed meal, market weak. Request. Immediate shipment commands premium of about \$3 over October, November, and December ship-

ment. Alfalfa meal demand light, offerings light, prices firm. Little change in corn feed hominy feed 50c lower. Quoted bran \$14.25, middlings \$17. Minneapolis, 36 1/2c, cottonseed meal \$34 Atlanta, \$34 Memphis, 34 1/2c, linseed meal \$44.50 Minneapolis, \$45.50 Philadelphia; white hominy feed \$23 St. Louis \$25.50 Chicago; gluten feed \$29.80 Chicago.

Grain

Grain prices continued their downward course more because of lack of speculation than because of selling pressure. There was evening up for government crop reports early in week. Report was construed as slightly bullish on wheat and bearish on coarse grains, but strengthening in wheat was only temporary. Chicago Sept. wheat declined 4 1/2c; Chicago corn declined 3 1/2c. On August 14, all grains broke sharply and wheat and oats sold at new low points for season. Restricted export demand and pronounced lack of speculative buying support were main depressing influences. Rail strikes and lack of smaller grain movement ignored. Visible supply of wheat 26,596,000 bushels, compared with 39,514,000 bushels last year. Corn featureless and prices largely followed wheat. Closing prices in Chicago cash market: No. 2 red winter wheat \$1.04; No. 2 hard winter wheat \$1.05; No. 2 mixed corn 60c; No. 2 yellow corn 61c; No. 3 white oats 31c. Average farm prices: No. 2 mixed corn in Central Iowa about 48c; No. 1 dark Northern wheat in Central North Dakota 92c. Closing future prices: Chicago Sept. wheat \$1.01 1/2; Chicago Sept. corn 57 1/2c; Minneapolis Sept. wheat \$1.05; Kansas City Sept. wheat 93 1/2c; Winnipeg Oct. wheat \$1.02 1/2.

Live Stock and Meats

Net changes in Chicago hog prices for the week were rather slight. Medium and light weights were practically unchanged while extreme heavies were 25c lower and some desirable heavies about 10c higher than a week ago. Beef steers were 10 to 25c lower with better grades of butcher cows and heifers and lower grades of beef steers generally 25c lower. Feeding steers were firm to 10c higher and veal calves generally 50c higher per 100 lbs. Fat and feeding lambs were firm to 10c higher. Yearlings 10 to 25c higher and fat ewes unchanged. On Aug. 14: Hogs opened 10 to 15c higher than Saturdays average, better grades closing steady at the advance. Better grades of beef steers and butcher cows and heifers were strong to 10c higher with spots up more. Stock steers and veal calves were steady. Fat lambs were firm to a shade higher with feeders slow. Aug. 14 Chicago prices: Hogs, top, \$10.35; bulk \$7.60 to \$10.25; medium and good beef steers \$8 to \$10; butcher cows and heifers \$3.90 to \$9; feeder steers \$5.40 to \$7.75; light and medium weight veal calves \$10 to \$11.25; fat lambs \$11.50 to \$12.75. Feeding lambs \$11.50 to \$12.50; yearlings \$8.50 to \$11; fat ewes \$3.50 to \$7.65. Stocker and feeder shipments from the week ending Aug. 12 were: Cattle 44,224. Eastern wholesale fresh meat prices were firm to somewhat higher than a week ago, beef and pork loins \$1 to \$2 higher with veal, lamb and mutton generally firm to \$1 higher. On Aug. 14 beef was unevenly 50c to \$2 higher than at the close of last week. Veal \$1 to \$2 higher; lamb and mutton steady to \$1 higher and pork loins strong to \$1 higher. August 14 prices good grade meats: beef \$16 to \$18, veal \$15 to \$8; lamb \$24 to \$27; mutton \$14 to \$17; light pork loins \$23 to \$27; heavy loins \$16 to \$20.

The unadvertised and sparingly advertised store-vents, such as actual "price revisions downward" on considerable stocks of goods, were only half worth while — because only half-known to your patrons.

Salt in West Africa.
The Bantu of West Africa makes elaborate preparations for a real soak by digging a hole in the ground, in which he puts seven herbs, a quantity of pepper, cardamom seeds and bushes, then he pours in a lot of boiling hot water. After he gets in, a light frame covered with clay is put over the hole to keep the steam after hours of steaming the bathwater and is washed off with clear water when kneaded by a professional for one hour, when he dons his scanty clothing and goes his way "shivering with cleanness."

The Olive Tree.
The olive tree is supposed to have been originally a native of Greece, but it is now naturalized in the south of France, Italy and Spain, where it has been extensively cultivated from time immemorial for the oil expressed from the fruit. The tree attains an almost incredible age. Near Fermo, in the vale of Marmorata, is a plantation about two miles in extent of very old trees supposed to be the same trees mentioned by Pliny as growing there in the first century of the Christian era.

What Would You Do?
My sister's eldest child is a girl. When she was six years old, twins were born. Soon after this event the family came home for a visit. One day when there was company and we were all seated at the dinner table Mary's childish voice rang out loud and clear: "Aunt Josephine, what would you do if you had twins?"

Homing Ducks.
An Innerwick (Scotland) farm servant sold six ducks to a buyer living three miles away whither the birds were conveyed in a hamper. Next day, however, the six ducks turned up at Innerwick again, having traversed the three intervening miles of rough and hilly countryside. How did they find their way all that distance afoot!

Early Waterway Builder.
Francis Egerton Bridgewater (1739-1803) was called the "Father of Inland Navigation in Great Britain." He completed a navigable canal connecting the cities of Liverpool and Manchester, and promoted the Grand Trunk canal navigation.

Watch Out, Carlsbad!
Carlsbad, the famous health resort is built on a crust, underneath which is a subterranean lake of boiling water, and all the hot sulphur springs have to be ceaselessly watched and the pressure kept down lest the town be destroyed.

Stand by the Truth.
Much less courage is needed to muster out a defiance before our enemies than is needed to simply state the truth as we see it, and quietly stand by it. After all, quiet steadfastness can always be trusted to carry conviction.

Sentiment Analyzed.
By the way, why is it that the poor always eat crusts? What do they do with the soft part of the loaf? We never heard of a poor man, not in literature, we mean, who didn't make his meal solely on the crust of his bread.—From the Kansas City Star.

"Ard."
"Ard" is a Saxon termination of personal names, denoting natural tendency, as Goddard, "good-tempered"; Giffard, "liberal"; drunkard, "sottish"; sluggish, "lazy"; and many others.

Badly Shaken.
Hubby (reading paper)—"Just think, an earthquake has destroyed the entire town of Piszitzkykisky in Poland." Wife—"Was it spelled the same way before the earthquake?"—Houston Post.

Bits of Information.
The phrase, "a feather in his cap," originated in an old custom in Hungary, which forbade any one to wear a feather in his cap unless he had killed a Turk.

Land Fish in India.
In India certain species of fish can live out of water a day or two, and on a hot summer's day they may be seen making their way rather clumsily across the fields.

On the Shiftless Shift.
First Laborer—"Are ye workin' Joe?" Second Laborer—"Sure, I got a dandy job fixin' de trolley tracks. I have to quit every minute or so to let de cars pass."—Life.

Chop Stroke Came Natural.
Golf Instructor—"Oh, swing the club, man! Swing it! Don't chop at the ball as if you were a butcher." Beginner—"Confound it, that's just what I am."—Boston Evening Transcript.

Wide Field.
Madge—"In taking a survey of the matrimonial situation are you thinking of anyone in particular?" Marjorie—"No; I'm just broadcasting."

Diagnose.
"Doctor, I dream constantly of falling over cliffs, of being chased." "Um! How often do you attend the movies?"—Judge.

Tuesday Wedding Barred.
In Mexico no sensible girl would consent to be married on a Tuesday, as that is believed to be the unluckiest day of the week for weddings.

Definition of Age.
Growing old is merely a process of becoming too sophisticated to enjoy anything.—From the Baltimore Sun.

TAX FREE SECURITIES

HANDICAP THE FARMER

What the policy of allowing tax exemption on securities means to residents of New York State is shown in a recent statement by H. C. McKenzie of Walton, former officer of the New York State Farm Bureau Federation and now tax expert for the national organization. The custom of investing in tax free securities has a net result of increasing taxes on all other property, asserts Mr. McKenzie.

"The last report of the New York State Tax Commission shows that while 25 per cent. of incomes of the people of the state comes from real property," Mr. McKenzie points out, "70 per cent. of the taxes are paid from this source."
"Tax free securities are nothing more than havens for the rich who wish to invest their money and escape paying their proportion of the expenses of the government. People with large incomes who formerly lent large sums on farm mortgages have entirely retired from this field of investment owing to the fact that a 5 per cent. tax free bond will give them as much income as a 10 per cent. mortgage."

Don't imagine you are successful because you are making money. You have still the respect of your fellow men to consider.

Dying has one advantage over all other misfortunes. You won't have to make explanations to your rubbery friends afterwards.

First it was secret diplomacy, and then we had shirt sleeve diplomacy, and now that the women are breaking in we presume it will be of the bloomer variety.

If we continue in our present American course, the time may come when the more incompetent & man is the better qualified he will be for filling public office in some of our large cities.

COMING SOON

The attraction program at the Great Hornell Fair will be more varied and extensive than usual. Daily aeroplane exhibitions with wing walking or parachute drops and passenger carrying have been arranged. Increased race purses insure a first-class racing program with both harness and running races each day. For stage attractions the management has booked an Arab Tumbling Act, Seal Act, High Perch Act and Comedy Triple Bar Act. Among other special features will be a large Automobile Show, Band Concerts, Auto Polo Games, special Pultry and Grand Champion Cattle Show, Federal, State and School District Exhibits of War Materials and Agricultural Products and a large Mid-way crowded with Shows, Games, rides, Croquet and things to eat.
