would have been very loth to advertise the fact that he would accept small deposits — many of them would have refused to accept them even if offered.

We know better today. We know that it pays in the long run to give every possible help and assistance consistent with safe, prudent banking, to every one who shows an inclination to forge to the front to accumulate something for old age protection. For this reason this Bank is very glad to accept and protect small accounts.

 Morning Service, 10:30 a. m., sermon: "The Church in the New Age."  
 Sunday School immediately following the close of the morning service; there are classes for all, and everyone is cordially invited to attend and join one of our classes.  
 The regular evening services will be omitted during the month of August, and will be resumed as usual the first Sunday in September.  
 "There is urgent need in our world today for a new, revitalized Christian church, which shall take-up anew, with the faith of its founder, the task of redeeming the world. Never was the church less fitted in some ways, however, for this great task than at the present time. Divided within herself, with her faith often cold, with pagan standard and worldly interests too often ascendant within her, it is no wonder that some of her noblest spirits despair of the church's being equal to her opportunity. It is not that the church is worse — for certainly never before were there so many within her who perceived clearly the truth — but that opportunity and the responsibility have suddenly become so much greater."  
 We welcome YOU to all the services of OUR CHURCH.

**WANTS ACTION**  
 Dear Bill:  
 Don't get mad because we think ahead of you. You have taken a big contract and we want to help you out. Here are some questions:  
 How are the girls going to get back the hair they have sacrificed when the style changes back to long tresses?  
 What would you suggest as a remedy for the cold-style-wearing apparel which has been in vogue for the gentle sex the past year or so — both top and bottom?

### VOL. XXXVII. PROSPECTS BR FOR CHURCH S

Not One Interviewed Willing Children Attend. One-third class Completed

At a meeting of the Council of Religious Education Tuesday evening, plans for the organization of a Week Day School in Andover for the year, the school to be of denominational Community. A most encouraging report was presented from those who had made a canvass of the community, showing that the majority of our people are heartily in favor of such a school. The parents of practically all the Protestant children of the public school were interviewed, and everyone expressed a willingness to have their children receive religious instruction in the Week Day Church. In fact, sixty-one children were enrolled in the school, or over 31% of the Protestant children registered in the public school, and to date not a single refusal had been received to express his approval. The educational agencies of the country have recognized the Week Day Church School as a most effective agency by its work and by its results.
