Of Interest to Farmers

SOY BEANS IN ALLEGANY COUNTY Can Be Grown Successfully on Valley Lands

During the past few years a number of attempts have been made by farmers in this county to grow soy beans. Practically every attempt has been successful. Still soy beans are grown very little as a crop to be used in supplying ensilage with the necessary protein to make it nearer a balanced ration.

Home spun Yarn

Home talent plays make fun and profit. Why doesn't your club or society plan a series? Aunt Ada's Axioms: "All riches can't be kept in strong vaults or in a pocket book; there's the riches of the mind, for example."

World's Finest Diamonds

The following is a list of the most famous diamonds in the world: (1) the Braganza, (2) the Dudley, (3) the Florentine, (4) the Great Mogul, (5) the Hope, (6) the Koh-i-noor, (7) the Nassac, (8) the Orloff, (9) the Pigott, (10) the Pitt or Regent, (11) the Sancy, (12) the Shah, (13) the Star of the South.

Is This Encouraging Idolatry?

Speaking of exports to the East, there is a certain English firm which, in the course of its ordinary business, produces large quantities of waste spelter and lead. This material is melted up, run into molds and exported in the form of images of various eastern gods.

White Flowers and Moths

The reason why certain pale flowers smell sweetly when dusk falls is because they are pollinated by moths, which are dusk-flying creatures. The scent is a guide to the winged visitors, and the pale color also helps. Notice honeysuckle, night-scented stock, and the tobacco plant.

Hang onto your nickles, fellows.

Prices are sliding down, and there may come a time when they will be of use in making small change. Some men delight in telling what brave deeds they would perform under certain circumstances, but they are careful not to recognize the circumstances when they arrive.

How many good tenants are ever found except thru advertising?

FALSE HOPE

Sin on every side is growing bolder, and the very delusion contained in the statement, "The world is growing better," is of satanic origin, and is for the purpose of putting to sleep the forces of righteousness.

Human nature is incapable of moral improvement by any human process known to mankind. The only thing within the power of God that can change human nature is regeneration. Reformation cannot affect its character. Reformation must precede regeneration. Those who have been regenerated are of course growing better; they are improving; they are progressing; they are growing more Godlike.

"The good are getting better, but the bad are getting worse. The regenerated, the unwashed, the unconverted are more abundant than ever."

MANY USE APPLES AS STAPLE FOOD

The large apple crop this year means plenty of a fruit adapted to many uses, well ripened varieties for every month until after Christmas at least, and little or no transportation costs for most parts of New York State, according to the home economics workers at the State College of Agriculture.

Collector's Notice for the Collection of School Taxes

Notice is hereby given that I, the undersigned collector of School District No. 1, Town of Andover, County of Allegany, have received the tax list and warrant for the collection of school taxes in and for said district, Town of Andover, N. Y., County of Allegany, and that I will receive voluntary payments thereon at Village Hall, for thirty days from the date thereof, from 8:30 until 11:30 in the forenoon, and from 1:30 to 4:30 in the afternoon as follows, Tuesdays, Thursdays and Saturdays of each week.

Heavy Loss Caused by Fungi

The annual loss caused by forest fires is enormous, but it is no greater than that attributable to fungi, which rot mine timbers, bridge timbers, telegraph poles and other structures of wood, necessitating their replacement. The life of the average railway tie is seven and a half years; if fungi would let it alone it would last twice that long.

Uncle Ab says: "Unending sunshine is just as bad as none at all."

Agriographs

Uncle Ab says: "Unending sunshine is just as bad as none at all. Pumpkins need a drier storage place to keep well than do root crops. Have you had your community would be to work up fuel for keeping the schoolhouse warm this winter?"

Feeding cabbage to dairy cattle

Feeding cabbage to dairy cattle increases the quantity of milk, but has little effect on the percentage of butter fat. Your exhibit at the fair helped boost a community enterprise and advertised your products. Advertising in your local paper pays for the same two reasons.

The bulletin on computing rations for farm animals, which has been in such demand that it couldn't be kept

on hand, has been reprinted by the State College of Agriculture at Ithaca. They'll send you a copy while they have it, if you ask on a postcard for F. 117.

Are the hens protected from winter dampness? One way to do it is to build the cement floor of the house on a layer of coarse stones six to ten inches thick. Set the lawnmower to leave more grass in the fall. New lawns especially need the protection of a good growth of grass to keep the roots from winter killing.

THE A. B. C. OF EATING

Q for the Quart of Milk each day. Which makes us quick to work or play. Q for the Quiet of mighty rest. The wisest eater sleeps the best.

How many good tenants are ever found except thru advertising?

Punchlines

There would be no salvation if we were not lost. You can't save something that hasn't been lost. The salvation provided by the blood of Christ is the only fact that is constructive, redemptive, and recreative. THIRD-The stubborn fact of depraved, lost human nature. This great entity known as sinful man cannot be improved by external processes; he cannot be redeemed by education or evolution, or any other of the delusions. He can be saved only by the regenerating act of the Holy Ghost. It is the duty of the church and of every minister of the gospel to preach the word of sin, the absolute certainty and power of salvation, the judgment that awaits the unrepentant, and to denounce with all the power possible the hellish delusion that the world is growing better. Avarice! Strife! Envy! And reach the heaven, they are growing worse—not better.

ATLAS PORTLAND CEMENT. BUSINESS short cuts built the bridge. The need for permanence and economy made it concrete. Your building material dealer will tell you to consider any construction frame.
