The Woman Who Wears a Front-lace Corset Knows Why She Wears It! She perhaps likes her corset looser when she is working about the house—and tighter when she dresses for the street. The Modart Front Laced then is the ideal corset for her. You see, it hooks in front and laces in front—so that one slips it on, hooks it up, and then adjusts the lacing to suit the immediate mood or figure-condition. If this corset fell short in any small respect we could not take such delight in telling you about it. Corset Department—2nd Floor
