VARIETY IN LUNCHES MAKES BETTER PUPILS

Same Old Things—Day After Day Get Monotonous—Here are Suggestions for Busy Mother

Hot lunches are being served in many rural schools, but studies indicate that where for any reason a hot lunch is not possible, varying the menu of the lunch box and a careful choice of what goes into it have their effect on the work of the pupils.

The daily round of bread and butter, pie and cookies, which many folks remember as their lunch at school, soon gets monotonous, to say nothing of its effect on health, and investigations find that many children don't even eat all of that. They hurriedly grab a cookie or piece of pie and run out to play because they know just what they'll find and would rather play than eat.

State and federal nutrition specialists recommend a pint bottle of milk in every lunch box and suggest the following combinations to go with it to add variety and attractiveness to the daily noon meal:

Sandwiches with sliced tender meat for filling, baked apple, and cookies or a few lumps of sugar. Crisp rolls, hollowed out and filled with chopped meat or fish, moistened and seasoned or mixed with salad dressing; orange, apple, a mixture of sliced fruits or berries and cake. Lettuce or celery sandwiches cup custard, jelly sandwiches, raisin or nut bread with butter, cheese, orange, or maple sugar, baked bean and lettuce sandwiches, apple sauce, sweet chocolate.

GOOD APPLE BUTTER NOT HARD TO MAKE

That a large part of the state's bumper apple crop will be made into apple butter this year to appear later as a relish or filling for cakes and sandwiches is the prediction of the home economics workers at the State Agricultural College at Ithaca.

Every farm should have its own ice supply; and ice is a crop which can be harvested when other work is slack.

In 1910 New York State had 215,597 farms; in 1920 the number had dropped to 193,195. But efficiency had increased.

Why lime the soil? Because it corrects soil acidity and enables clover, alfalfa, and other legumes to grow better.

It's mighty discouraging to grain weevils when the bins are kept clean, inspected frequently, and if necessary, fumigated.

The restoration of thrifty forests to our unproductive hillsides is the only thorough remedy for a scarcity which is already serious and may soon become critical.

THE A. B. C. OF EATING. R for the Rules these rhymes advise For Rhubarb which in spring we prize. Also for Rice; the polished kind Has left it's better part behind.

COUNTRY LIFE CONFERENCE

The fifth annual conference of the American Country Life Association will be held at Teachers' College, Columbia University, Nov. 9th to 12th. The theme of the conference will be "The Education of the Rural Community." Some of the best known students of country life are down for addresses. These include President Kenyon L. Butterfield of the Massachusetts Agricultural College, Dr. C. J. Galpin of the federal department of agriculture, Prof. O. G. Brim of Cornell University, R. E. Heironymous of the University of Illinois, and J. L. Gillin of the University of Wisconsin.

PRESERVES AS GIFTS

Some New York housewives during jelly and preserving time are looking ahead to Christmas the home economics workers at the State College of Agriculture report. Small glasses of these delicacies, wrapped up in tissue paper with a gay ribbon and a bit of holly, they say make much more acceptable gifts than do the useless trinkets so often given. Even as gifts for men these little jars of jellies and preserves are declared to be usually more appreciated than the proverbial "Christmas cigars" and untieable neckscarfs.

If the advocates of impartial law enforcement will stand up and be counted we fear the result will be nothing. Everybody wants himself to be exempt.

The death of the soldier bonus bill did not surprise anyone. The boys should have demanded it in advance.

Homespun Yarn

Did you ever use the ice cream freezer for small churnings of butter.

A pan which contains a thin layer of sand placed in the bottom of the oven prevents food from scorching.

After all, good taste in dress consists of choosing the colors and styles of clothes which suit one best.

A roll of adhesive tape in the kitchen drawer is the handiest thing in one kitchen. It mends nearly everything.

The time spent in washing, polishing and labelling the jars of canned stuff is well worth it when they are opened to serve next winter.

Aunt Ada's Axioms: "The farm mother whose world is fenced in by the kitchen stove and the pantry door the year 'round, doesn't accomplish as much as her neighbor who gets away from home occasionally."

Is your district school building fit for the children to spend most of their time in thru the winter? The new bulletin on rural school buildings from the State College of Agriculture at Ithaca contains some good suggestions. Ask for E 52.

To the Public

Official Notice Regarding Your COAL Supply NEW YORK STATE FUEL ADMINISTRATION

165 Broadway, New York City. General Order No. 1, Effective Monday, Sept. 18, 1922

(1) By virtue of the power vested in me under Legislative Act 1 of the extraordinary Session of August 28th, 1922, it is directed that no dealer or distributor within the confines of New York State shall deliver a greater quantity than two weeks' supply of the domestic sizes of anthracite coal known as grate, egg, stove, chestnut and pea, inclusive, for any one household or other consumer of such sizes. Nor shall he deliver said two weeks' supply, or any part thereof, where there is already on the premises, in the cellar, or within the possession of the customer a quantity equal to or in excess of two weeks' supply, meaning thereby twice the average weekly consumption from present date to April 1st, 1923. This order, under all the penalties of the Act, will be strictly enforced, until modified.

(2) If the distributor is not in possession of the facts necessary to enable him to carry out the foregoing, it is then a further part of the order that he can require the customer to furnish him with:

- (a) A statement of his actual requirements to April 1st, 1923.
(b) Size and tonnage of coal which he now has on hand.
(c) That no order is on file with any other source of supply.

Should the customer make a false statement to the distributor he will be held liable under the penalties of this act. WILLIAM H. WOODIN, A. C. GOODYEAR, State Fuel Administrator, 8th District Fuel Administrator. F. C. MULKIN, Allegany County Fuel Administrator, September 15, 1922. Friendship, N. Y.
