# Mr. and Mrs. Reader

When you pick up a copy of your home paper, do you ever give any thought to how it was produced or the money that is spent to print it and deliver it at your home?

The newspaper of today, no matter if 25 cents a copy was charged, would be the cheapest thing you bought. In the first place it represents an investment in plant and equipment of many thousands of dollars.

Its editor and staff work diligently day in and day out to gather all the news and present it to you in readable fashion. It aims to keep you informed on all the news that's "fit for ink."

With the average paper, the price you pay for subscription does not cover the cost of WHITE PAPER. Yes, the newspaper is the cheapest thing you buy.

Think it over. Look it over. Then support your home paper. It's the best investment you can make for it brings the largest returns.

**Cats Sense Earthquakes.**  
Cats and some other animals seem to be endowed with what some investigators regard as a sixth sense in their ability to sense the approach of an earthquake or similar disturbance. In the earthquake countries it is frequently noted that the cats are very restless just before one of these demonstrations. At Valparaiso the family cat of a well-known scientist was noticed to be very restless, its uneasiness increasing up to the point when a "trembler" was experienced and during the disturbance, the animal's hair was raised and ears flattened.

**Lee Declined Command.**  
On April 18, 1861, President Lincoln, through Francis Preston Blair, tendered General Lee the command of the army of the United States, which was declined. Of this action Lee said: "I declined the offer he made me to take command of the army that was to be brought into the field, stating as candidly as I could, that though opposed to secession and disunion, I could take no part in the invasion of the southern states."

**Marriage in Poland.**  
The average man isn't overjoyed to learn that with his wife he is acquiring a large following of in-laws. But Poland it is different. In the marriage contract the man does not inquire what a girl's portion is, but how many relatives she has, as each one is relied upon for a gift. It is not unusual for the woman to propose a match, through her parents.

**Finch a Musician.**  
The purple finch, a bird of glistening, deep carmine plumage, is an excellent musician, singing a rich, rolling, well sustained song, says the American Forestry Magazine. This species has a decided fondness for buds of various kinds, and may often be seen eating the catkins of the poplars.

**First Lead Pencils.**  
The earliest mention of what are known today as lead pencils appears in records dating back to 1565. This was shortly after the discovery of the noted graphite mine at Borrowdale, England, which furnished the material for the first pencils.

**The Difference.**  
"The main difference 'twixt me and my boy Jim," explained the farmer, "is that when I put in a day at work I don't feel like runnin' round nights, and when Jim puts in a night runnin' round he don't feel like workin' days."

**Elizabeth's Coaches Aroused Envy.**  
In the end the husbands capitulated, "and after a while divers great ladies, with as great jealousy of the queen's displeasure made them coaches, and rid them up and downe the countries to the great admiration of all beholders."

**Promote Prosperity.**  
"I have ever considered it as the indispensable duty of every member of society to promote, as far as he is able, the prosperity of every individual, but more especially the community in which he belongs."—John Hancock.

**Described.**  
A teacher in English in one of our colleges describes a money-lender as follows: "He serves you in the present tense, lends you in the conditional mood, keeps you in the subjunctive, and puts you in the future."

**Huck Finn—The Original.**  
Huckleberry Finn was drawn from real life. Barney Farthing, the original of Mark Twain's most famous characters, died a pauper in 1917, in an almshouse not far from where he and Mark Twain were schoolfellows.

**To Wash Jewelry.**  
Good jewelry with stones in them should be washed in warm suds, with several drops of ammonia added. This thoroughly cleans and shines them.

**Safety.**  
"Yes," said Mrs. Plugleigh, "I always keep my dog tied up. I never can be sure when some tramp might come along and bite him or steal his bone."

**The Gentle English Way.**  
His voice stopped exactly like when you hit a neighbor's gramophone with a well-aimed brick.—E. G. Wells. In the Magic Shop.
