Try to make yourself better than your neighbor, and we will tip him off to do the same. That would help some.

HONEY PHILOSOPHY for 1922. AUTOMASTER

WHEN you get a silver in your finger it's likely to cause trouble if it's left there. As a matter of fact, after a time of it either turns green or water will force it out whether it likes it or not. It just don't belong there. One way or another it's got to get back to where it came from. When it does then both silver and stick are better off. Their's stronger. The chances are, however, silver and stick must pass through all sorts of changes before they unite again. That's the price they pay for getting away from where they fit. It's always best to find out where we fit and not try to break in where we don't belong.

"Give us this day our daily bread," but for heaven's sake don't boost the price. Having a mind of your own is not sufficient. You must know how to use it.

Fortunately, the Near East is far away. We don't have to plunge.

Don't advocate giving the devil his due. You might not like your future home.

Every man should write his own epitaph for his tombstone. He knows what to leave off.

Some one should remind us, occasionally, of the continued existence of the League of Nations.

C. F. BABCOCK Co. Inc. 4-118 Main Street Hornell, New York. Fashion Says CURTAINS MUST HAVE A DECORATIVE TOUCH The present vogue in window decoration is for a net curtain carrying some touch of distinction. This desired decorative touch may be found in the character of the net itself, as in the case of such nets as Quaker Filet Grandee, Sampler Lace, Shantung Net, Casement Lace, etc., — or, it may be supplied by the use of a fringe or other attractive trimming on the more standard filet grounds. In either case the result is a delightful curtain. During HOME CRAFT WEEK OCTOBER 2nd to 7th We are displaying distinctive examples of this latest vogue in decoration. Moreover we are also showing the most beautiful line of merchandise we have ever selected for your approval. Be sure to see such novelties as: — Casement Lace Decorators believe that Casement Lace is the final development of the casement cloth with that element of transparency which is the basic requirement of any modern window covering. Many delightful patterns. Shantung Net Another decorative surprise! This new net carries the quaint originality of oriental art without that extreme severe character which makes most oriental fabrics grow quickly tiresome. It's a delightful window covering for many rooms. Home Craft Week
