THE ANDOVER GRANGE FAIR

Next Wednesday Afternoon and Evening is the Annual Event. The Premium List Follows:

Wednesday, Oct. 25th, will occur the annual Grange Fair, at the I. O. O. F. Hall. Vegetables, baked goods, aprons and other sewing and candy will be on sale in the afternoon and evening. At 5:30 a roast beef supper, "best ever" for 35c. Everybody come.

After supper program, and Mr. G. O. McInch will be present and explain the school law as proposed by the committee of 21. Everyone should be most intensely interested in this, and will not want to miss hearing him.

Poultry culling demonstration will be given in the afternoon also.

Following are the different classes to which prizes will be awarded.

- Class I. Individual Farm Exhibit.
- Class II. Vegetables:
Best plate of potatoes according to variety.
Best plate of apples, according to variety.
Best Hubbard Squash.
Largest Pumpkin.
Best head of cabbage.
Best display of any other vegetable.
- Class III. Canned Goods.
- Class IV. Baked Goods:
Best dozen Biscuit.
Best Apple Pie.
Best Pumpkin Pie.
Best Berry Pie.
Best Chocolate Cake.
Best Layer Cake.
Best White Cake.
- Class V. Fancy work, all kinds.
- Class VI. Children's Projects.
- Class VII. School Exhibit.
- Class VIII. Poultry (Best of any breed).

OCTOBER TERM COUNTY COURT

- Allen, Harry Chalker; Almond, Wm. Coburn; Amity, W. M. Corbin, P. F. Whitcomb; Andover, Bealy Holwell, Arthur Jones; Angelica, William Abbey; Belfast, Frank Guilford; Birdsall, Thomas Dickson; Bolivar, Charles E. Parker; Caneadea, Dan Nicholson, William Atherton, Henry Taft; Centerville, George Holmes; Clarksville, Rich LaFever; Cuba, W. F. Robie, John Pike, C. O. Swift; Genesee, Ernest Hatch, George Lobe, Archie Ryder; Granger, James Shaughnessy; Grove, Platt Glover, John Bardwell; Independence, Harry A Taylor, Vivian Matteson; New Hudson, Claron Cole; Rushford, Wallace Waite, John Lyon; Ward, E. S. Hayes; Wellsville, Henry Graham, Wayne Scott, T. C. Rixford; West Almond, E. E. Tucker; Wirt, Marion Robinson, O. M. Cline.

FATHER O'BRIEN HONORED

An interesting ceremony at Immaculate Conception Church, this morning, was that at which Bishop Turner, of Buffalo, conferred upon the Very Rev. R. O'Brien, the very high ecclesiastical honor, the title of Rt. Rev. Monsignor. This appointment and honor was made by Pope Pius, a few weeks ago, and was conferred this morning by Bishop Turner in the presence of high dignitaries of the diocese and neighboring priests and friends of Father O'Brien. — Wellsville Reporter.

ANONYMOUS

"Aunt Jane" sent a very good contribution to the News this week, but as we do not know the estimable lady it is impossible for us to publish it, much to our regret. If the lady will identify herself at the News office we will gladly give her room in the next issue of the News.

MRS. EGGLESTON PRESENTS DEED OF Y. M. C. A. CAMP SITE

At a meeting of the County Y. M. C. A. at Wellsville, Oct. 11th at which Mrs. V. L. Eggleston and Mr. and Mrs. E. F. Stearns of this village were guests of honor, Mrs. Eggleston presented the association with the deed for the camp site given in memory of her late husband. Lenford Horton, of this village, was presented the honor emblem of the camp, having passed all tests submitted by the camp management. Resolutions thanking Mrs. Eggleston for the splendid gift were passed by the assembly.

A. R. BAKER HAS AUTO MISHAP

Car Hits Concealed Concrete Culvert, While Attempting to Pass Another Machine, Sunday Evening.

While on the homeward trip from Elmira, Sunday afternoon, Arling R. Baker, with his family and Mr. and Mrs. Al Wood, had a bad automobile accident just after descending the Accident Hill, between Bath and Hornell, at about 6 o'clock. No one was seriously injured, but Mrs. Baker received a bad blow just above the right temple, and Miss Sarah Jeannette suffered the loss of one of her front teeth. The car was damaged quite badly.

Mr. Baker informs the News man that he was driving behind two other cars. They were only making about 15 miles per hour. They had been late in leaving Elmira, and wished to drive a little faster. He gave the cars ahead the horn and turned out to go by on what appeared to be a perfectly smooth piece of state road.

At about the same instant the car ahead, evidently sounding his horn simultaneously with Mr. Baker's, turned out to pass the car ahead of him, thereby forcing the Baker car into the tall grass along side the state road. A blind culvert was concealed beneath the grass and Mr. Baker's car, going now at a fair rate of speed, was stopped instantly when the front axle hit the concrete culvert.

The entire party were thrown forward with great force, and the wonder is that none of them were seriously injured.

E. D. Baker, upon receiving a telephone message of the accident, rushed with his automobile to the assistance of his brother, bringing the entire party home. The car was towed to Hornell for repairs.

ALLEGANY COUNTY MEDICAL SOCIETY ELECT OFFICERS

The annual meeting of the Allegany County Medical Society was held at Belmont, Oct. 12th. Officers for the year were elected as follows: President—Dr. L. S. Benedict, of Wellsville. Vice-President—Dr. L. C. Lewis, of Belmont. Secretary-Treasurer—Dr. C. R. Bowen, of Almond.

PLUMBING

O brothers, when I start to eat I want no ribs upon my meat but when I hear the critters humming and see some forty 'leven coming, I'm glad I live where folks have plumbing. A fly is never clean and neat; he may have garbage on his feet. In country homes 'e'en in this new age he often carries germs and sewage. O let us arise and give our thanks to him who first made septic tanks. How dear to my heart is a cool drink of water, poured by some farmer's charming daughter. While gazing on that glowing cheek, of germs how can I think or speak? (But if I drink can I avoid the lurking dangers of typhoid?) I fear I must delay the draught that I may look before and aft, survey the landscape near and far and see where certain buildings are; then, noting slope of hill and plain, determine where those buildings drain. And even if a glance should show the well above, all else below, some excavating should be done to see how straight the strata run. Perhaps they dip, perhaps they bend, perhaps in that old well they end. And so, sweet Hebe, don't you think you really ought to boil my drink? Tho dear to my heart is the old oaken bucket, the old leather sucker or chain on a sprocket, I view the same with grave alarm at many a home, on many a farm. I do not like that building's style, let's move it back a half a mile; or, better still, let's join the ranks of those who have good septic tanks.

HOW TO BEST BURN COKE

Fuel Administrator Gives Advice From a Heat Expert. Coke as Good as Coal, Pound for Pound.

Col. A. C. Goodyear, Fuel Administrator for the Eighth Judicial District, to-day appealed to householders to burn coke in furnaces wherever it can be purchased. Pointing out the necessity of using coke and other anthracite substitutes to overcome the inevitable shortage with which Western New York will have to contend this fall, and winter, Col. Goodyear has had prepared a special article dealing with the burning of coke.

This article was written by P. B. Howell, director of the department of research of the American Radiator Company. Howell is nationally recognized as an authority on the subject. His advice on the use of coke as a domestic fuel follows:

"The regular cast iron sectional round or square steam or water boilers universally used for house heating will burn coke just as well as they will burn hard coal.

"Coke has approximately the same heating value as hard coal weight for weight.

"A bushel of coke and a bushel of hard coal occupy the same space. But coke weighs approximately one-half as much as hard coal, and therefore contains approximately one-half as much heating value.

"Two bushels of coke and one bushel of hard coal have approximately the same heating value, the two bushels of coke occupying twice as much space as the one bushel of hard coal, but both have approximately the same heating value.

"Coke is soft coal with all of its gas removed from it, the portion called coke which remains being practically all carbon.

"Because of the difference in weight and characteristics, coke when burned as a substitute for hard coal should be shoveled into the fire pot until the fire pot is crammed full of coke, the dampers should be closed practically tight for coke does not begin to require as much air or draft as hard coal.

"Almost, always there is a sufficient leakage of air into the ashpit of the heating boiler, when all drafts or dampers are closed to maintain an entirely satisfactory coke fire in the fire pot. The least additional draft will often cause the coke fire to burn entirely too fast which makes tinkers and which is extravagant, wasteful, needless, and sometimes will heat the greatest so hot that they will set, so for these reasons fill the fire pot crammed full of coke and shut tight all the drafts possible.

"Gas house or salvay coke for heating purposes—most frequently comes several sizes in a ton, ranging from furnace, egg, stove and chestnut, and sometimes finer than chestnut. If a load of this coke ranges in the larger sizes only a beneficial way of checking or holding down the combustion or fire is after firing a fresh charge of such sized coke to spread on top of same a shower of from two to five shovels full of ashes, depending on the size of the fire, this especially when fixing the fire for the night. The ashes gravitate downward thru the large spaces between the pieces of coke and effectively check the fire by choking somewhat the passageways of the draft of air thru the coke.

"Coke is an ideal house heating fuel and makes less dirt and mess and a finer ash and deposits less residue in the flues of the heater than any other solid fuel, and tho a charge of coke will not last in the heater as long as a charge of hard coal because of its greater volume or weight as compared with hard coal, as much time, as can be gotten into the fire pot to insure keeping the house warm well into the next morning or until the next firing period."

FORD TO DISCHARGE WORKERS WHO DRINK

The 70,000 men employed by the Ford Motor Co., Detroit, were under orders from Henry Ford Monday to leave all forms of liquor, wine and beer alone at all times under penalty of losing their jobs.

Asserting that drinking among certain of his employees recently had been the cause of accidents in the Ford plants, the manufacturer issued a statement declaring that any of his workmen whose breaths smelled of liquor, who were found to be carrying liquor, or who were known to have it in their homes, will be dismissed at once.

AUTO TURNS TURTLE NEAR TIP TOP

One Man Killed, Another Badly Injured, When Car Goes Over Bank. Defective Lights the Cause.

Clayton W. Burdell, of Hornell, was instantly killed and C. H. Norton, also of Hornell, seriously injured, when the Willis-Knight Touring car in which they were riding turned turtle into a swamp near the T. G. Burdick farm between here and Alfred Station, about 8 o'clock Wednesday night.

The car was being driven at a high rate of speed toward Hornell, when witnesses say their lights flickered and then went entirely out, followed by a crash. The car went over the bank on the left side of the road, skidding quite a distance and then turning turtle.

Dr. Cleary of this village was summoned and found Burdell had been caught under the car and his head crushed. Norton had been thrown clear of the machine and, altho injured, is expected to recover.

Both men were Erie employees, Burdell being an engineer and Norton, master mechanic in the Hornell yards.

AUTOMOBILE EXPRESS WRECKED

The Pettibone motor express running between Wellsville and Hornell, was badly wrecked Wednesday morning, when the steering gear went wrong and the car climbed the high bank on the right side of the road just the other side of the overhead railway crossing, near Alfred Station. The machine went up the embankment and toppled over backward ending up with the wheels in the air.

The auto was badly wrecked, but Pettibone, escaped with a few bruises and cuts.

LOST LITTLE FINGER

LeRoy Brundage had the misfortune to lose the little finger of his left hand Wednesday, while drilling for the Empire Gas Co. on the Burdick farm in East Valley.

Mr. Brundage was sharpening an axe, a pin flew out of the band wheel and the bull rope caught throwing him in the air. When he came down he was shy a little finger and had a broken rib.

1923 LICENSE PLATES

Motorists are required to have license plates by January 1st, instead of being allowed a month of grace as formerly. It is announced that 600,000 sets of plates for next year have been made up and are about ready to be shipped for distribution. The new plates are purple and white.

Formerly it was impossible for all motorists to get their plates by the first of the year, due to the delay in manufacturing, but this year they are being manufactured especially early that they may be ready for distribution by January 1st.

BURGLARY AT ANGELICA

The clothing store of Roderick Warner, of Angelica, was robbed last Monday night. Forty fall suits were stolen. This is the third time this store has suffered from theft within a short time. A watch dog was kept in the store, but for some reason failed to give an alarm.

Legion Women's New Head-dress

Thelma Sines, of Logansport, La., wearing the new head dress of the women's American Legion Auxiliary as adopted at the New Orleans convention.

What your store is to be in a year from now exists in your plans for it to-day—in the publicity campaign you're creating now.

DIDN'T KNOW IT WAS LOADED

Cuba Man Didn't Know Liquor Was in His Car—Fined \$5 for No Lights

Batavia, Oct. 16. — Because he claimed he did not know that bottles of liquor were in the back seat of his car, William Howe, of Cuba, arrested on charge of illegally transporting liquor, was discharged in city court this morning after he had paid a fine of \$5 for parking his car without a tail light.

Howe said he had given a stranger a ride and that the man had thrown his coat over the rear seat. He said he believed that the three pint bottles had fallen from the stranger's coat.

"SIGN-BOARDS ON THE UP-ROAD"

Rev. H. B. Williams, Former Andover Pastor, Religious Articles Break Into Best Central West Dailies

The many friends of the Rev. H. B. Williams, a former Andover pastor, will be pleased to learn that his valuable articles "Sign-Boards on the Up-Road" are being recognized in some of the leading daily papers of the Central West.

The Columbus Dispatch of Sept. 29th has the following:

"Thru special arrangements with Rev. Hamilton B. Williams, pastor of the Worthington Presbyterian Church, the Dispatch will also publish each Saturday a special article written by him on 'Sign-Boards on the Up-Road'."

Rev. Mr. Williams is well known for his poetry as well as his abilities as a preacher of the gospel. His short, but excellent articles are well timed and contain many charming bits of verse. Rev. Mr. Williams contributed these articles to the Andover (N. Y.) News during the 11 years he was pastor of the Presbyterian Church there. The Dispatch and the public is fortunate in having these excellent articles provided weekly in addition to the regular material which has in the past been published on the church page.

The News has continued the publication of "Sign-Boards" since Mr. Williams left Andover, and they will be kept going indefinitely.

CHEST CLINIC SUCCESSFUL

The chest clinics, held at Belmont and Fillmore under the auspices of the Allegany County Tuberculosis Committee, were well attended. At Belmont twenty-nine people were examined and at Fillmore there were nine.

Dr. Stanley L. Wang, chest specialist, of the State Charities Aid Association, conducted the clinics. The physicians of both sections gave their hearty support and assistance to our efforts in this portion of the Preventive Program.

Those who so ably co-operated in making our clinics a success were: The Village Board of Belmont, who gave the use of the Town Hall; the managers of the Opera House at Fillmore; Mrs. Jane Krebs, of Angelica; Miss Mary Crawley, of Fillmore, and Miss Grace Mariner, of Belmont, who assisted at the clinics; and the business men of Belmont and Fillmore by whom scales were loaned. To each one the committee extends thanks.

Perhaps it may not be generally known, but these clinics are financed by the Christmas Seals, which are to be put on sale in the near future.

THE WOMANS CHRISTIAN TEMPERANCE UNION WILL MEET WITH MRS. JEFFERSON BREWSTER THIS (FRIDAY) AFTERNOON.

CHILD KILLED BY AUTOMOBILE

Seven-year-old Child of Earl Schoonover Ran Directly in Path of Approaching Machine.

A very sad accident occurred on the state highway, just west of Elm Valley, about 5 o'clock Sunday afternoon, when little Katherine Schoonover, seven year old, was instantly killed by an automobile as she was crossing the road.

The car was driven by Ray Waffer of Angelica, who was unable to avoid the accident, as the little one ran directly in front of the car. No blame is attached to Mr. Waffer.

Mr. and Mrs. Earl Schoonover live on the Crowner farm, about a mile west of Elm Valley. They were former residents of Andover. They had three little girls, seven, five and one year-old, and Katherine, the little seven-year-old, crossed the highway with her father and mother talking to some friends in a car. Afterwards, in returning to the house, the father had already crossed the road, and the little girl ran after him just in time to get directly in the way of the automobile driven by Waffer, who, with his wife and children had been visiting at the home of Dr. Common in this village. Waffer endeavored to stop his car, but the child was run over by the front wheel, dragged a few feet, and then the rear wheel passed over the body. Katherine was instantly killed.

Services for little Katherine were held at the farm house at 2 o'clock Tuesday afternoon, with burial in Valley Brook Cemetery.

The bereaved parents have the sympathy of everyone.

THE WEATHER

Following are the weather observations taken by the Andover Co-operative Station for the week beginning Oct. 12, 1922.

Day	Temperature	
	High	Low
Thursday	54	40
Friday	48	28
Saturday	60	34
Sunday	68	34
Monday	64	50
Tuesday	80	42
Wednesday	40	34
Coldest, 28 on Friday; warmest, 88 Sunday; greatest range, 34 Sunday.		
Day	Precipitation	
	Amount	Direction
Thursday	none	
Friday	none	
Saturday	none	
Sunday	none	
Monday	none	
Tuesday	.12 inches	
Wednesday	none	
Total .12 inches.		
Day	Barometer	
	Reading	Time
Thursday	30:05	
Friday	30:32	
Saturday	30:15	
Sunday	29:90	
Monday	29:90	
Tuesday	29:90	
Wednesday	30:45	
Two clear days, four partly cloudy, one cloudy.		

J. HARVEY BACKUS, Local Observer.

W. C. T. U.

The Womens Christian Temperance Union will meet with Mrs. Jefferson Brewster this (Friday) afternoon.
