

### Six and a Half Million Farms

Late census reports state that in the United States there are six and a half million farms with an average of 148 acres. The total value of these farms is nearly seventy-eight billion dollars.

It is evident, therefore, that farming is, not only in importance but in size, the basic industry of our country.

Our facilities are aways at the command of the farmer.

### Tidbits From Our School

Two weeks ago this morning all the students in the Study Hall were entertained by an interesting story related by Prof. Tubbs. After finishing the story he informed that all members of English Classes would be required to reproduce this story in their own words bringing out a good moral lesson in this reproduction. A prize would be awarded to the writer of the best theme in each class. Last Monday morning, after careful deliberation by the faculty, prizes were presented to the following:  
Birdie Sandberg, Eighth Grade.  
Doris Tubbs, First Grade.  
Nathalie Shepard, Second Grade.  
Alice Smith, Third Year.  
Lillian Warfield, Fourth Year.

The second meeting of the delegates of the Allegany County Athletic Association was held at Belmont, October 14th. The four amendments mentioned last week were passed so as to conform to the state constitution. The question now under dispute is whether the girls' team will play boys' or girls' rules the coming season.

The Kappa Zeta held their second initiation at the High School building Monday evening. By the looks of the study hall next morning, a sumptuous feast must have been partaken of by all. Rumor has it that the Beta Mu boys had their share of the delicacies. Is that so? (No es verdat)

The Popularity Contest which is being conducted by the Senior Class, is fulfilling their highest expectations. Nearly fifteen dollars has been taken in on last Tuesday. This contest lasts until October 30th. Help the Seniors and buy a few votes.

The Seniors' third bake sale, which would have taken place to-morrow morning, has been postponed, owing to the Entertainment Course Campaign which will begin on that date. The dates and attractions for our course this year have been arranged, and we believe "will give" complete and entire satisfaction to everybody.

The first treat the Senior Class offers is The National Male Quartette under the management of Mr. Charles Cox, which come to us on the evening of Oct. 31. These men have a national reputation as the best singers on the American platform to-day. Do not miss this number. The Glee From the West, an exceptional entertainer and impersonator, presents an evening of entertainment for the second number. Those who enjoyed Miss Roach and Miss Freeman of last year will not want to miss Miss Goude. The class has secured a play, "Atonement," by the Glen Wells Co. It is a bit mysterious, highly entertaining and of good morals. The lecture, which is our last number, alone is worth the price of a season ticket. C. M. Sanford speaks on "Life's Loose Ends." No man, woman or child can afford to miss this. Some of the questions discussed are: What type of boy should study medicine, engineering, law? What qualities does a girl need to succeed as a nurse, a teacher? Posters and bills will be distributed to all to-morrow (Saturday) which will give a full and efficient account of this superb course.
