

# THE JOY OF SUCCEEDING

To him that hath, it is said, shall be given. Certain it is that the man who anticipates future wants and saves toward that end is the man who achieves.

An interest-bearing account enables such a man to accumulate small amounts until the total is sufficiently large for him to acquire things really worth while — a home, education for his children, desirable investments, and an independent old age.

"To re-enact spiritual reality today — not necessarily to repeat the ancient creed, — is the substance of true worship. We must fashion our creed in terms of contemporary thought for the direction of the faith of today. This will involve the reinterpretation of every great doctrine of the Christian faith in consonance with the mental and moral ideals that express the best life of our times. Every great constructive religious age has faced anew the abiding problems of life, and wrested an answer from its deepest convictions. The authoritative meanings of God must be brought home to contemporary men in terms of contemporary life."

We welcome YOU to all the services of our church.
