—Longfellow.

Tidbits From Our School

Christmas vacation begins on Friday noon (to-day) and lasts till Tuesday, Jan. 2, 1923.

A Christmas party was given by the Senior Class, Tuesday evening. A large Christmas tree was put up and decorated very beautifully in the study hall, and presents and candy bags fastened upon it. Each present was numbered and the duplicate numbers were sold at ten cents each. About thirty-three numbers were sold and candy bags were given to all who came. A program, consisting of a few recitations, songs and a short play by high school students, was given. The study hall was decorated with colored papers and bells. All who attended were well pleased with the program, tree and decorations.

The High School Boys' Basketball Team go to Alfred on Saturday evening to engage in their second game of the league. A truck has been secured and anyone who wishes to attend the game may do so at the meagre price of thirty cents per person. The boys need a crowd to cheer and encourage them to victory. Notify manager or Mr. Tubbs if you wish to go in the truck.

On Wednesday, Dec. 27th, both teams, boys and girls, journey to Canisteo to play with the Canisteo warriors. Be sure and remember this date also.

Comments

Flowers for the four classes of High School should be as follows: Seniors—Forget-me-not. Juniors—Laurel. Sophomores—Climbing Rose. Freshman—Cowslip.

Common sense is what makes a High School education valuable.

After you think you have finished your Christmas shopping you always find that you haven't. Look and see.

School spirit seemed to advance to the front Friday night with the cheering sendoff given by the students under the old reliable colors "purple and white." The students took the slogan, "Say it With Cheering," and did it finely. It is the best way to show school spirit and to encourage a team. Let the good work continue forever! Such spirit pays back with interest.

I notice by the papers that Henry Ford makes \$264,026.41 a day. When the Seniors read this they will most likely wish that they could take his place for a day or twenty-four hours at least.

What Andover and all other towns and cities need is a coal wave.

One of our farmer boy students claims that he has a pet cow who will devour all the soap that she can get. We all suppose that this kind of nourishment helps the cow to give clean milk.

Two heads being better than one sometimes explains to a teacher very clearly how a dull pupil received a 100% on his or her test paper.

Twelve days before Christmas, When all thru the hall Rang out the clear voices of our Professor's call.

Voorhees Hill

December 20.—Perry Van Schaick visited Whitesville relatives, Sunday. Carroll Church vacated his bachelor apartment at the farm last week, returning to his home in Proctor District.

Mr. and Mrs. G. A. Simkin entertained the neighbors Saturday evening in honor of their daughter, Ena, who recently reached her 16th birthday.

Master Roger Baker recently had the misfortune to fall while playing and struck his knee on a sharp stone causing a bad cut.

Mrs. Stella Blowers, who has been the guest of her daughter, Gertrude Van Schaick, for several days, went to Whitesville Sunday to pass the holidays with relatives there.

Quite a number of our residents are victims of the epidemic colds.

Bring the Children With You to Babcock's

TOYLAND

WHO HASN'T felt the thrill of childhood days on Christmas morning? To the child mind the ages of waiting and planning—then the day of days—and Santa "He's here!" St. Nicholas and Kris Kringle are the names the children of Europe know him by. But our own American kiddies recognize him only as Santa Claus. The embodiment of the true Christmas spirit is found in this mythical bringer of joys. Grown-ups find endless joy in helping Santa play his part. The fun of decorating the tree—or placing the toys for Jean and Bobby—that's Christmas!
