### THE GREEN FOOD-MACHINE

Life on this planet is dependent on At the regular monthly meeting of the State College of Forestry, Syracuse be State College of Forestry, Syr

in Utica on December 20th, it was recommended that the prices to be paid by dealers for January milk be practically the same as those which have prevailed in December. These prices which are for 3% milk in 201-210 mile one, are as follows—
Class 1 \$3.87. Milk in this class is disposed of in the fluid markets.
Class 2. \$2.90. Milk in this class is manufactured into ice cream and soft cheeses.
Class 2. \$4.90. Milk in this class is manufactured into ice cream and soft cheeses.
Class 2. \$4.50c above the average wholesale quotations for butter in the New York City market with the usual allowance of 5c. for making the differentials of 4c per pound for butter fat. Milk in this class is used in the manufacture of condensed and evaporated milk and milk products.
Class 3.8. Prices to be 40c above the average wholesale, quotations for butter in New York City, with the usual allowance for making and butter fat. Milk of this class is manufactured in to hard cheese.
Class 4-A. Milk manufactured into hard cheese.
Class 4-A. Milk meanufactured into hard c

factured into hard cheese.

Class 4-A. Milk manufactured in to butter, based on the average wholesale quotations in New York City figured on an overrun of 16% This green food-machine that turns out the usual allowance for making with the usual allowance for making. Chlorophyll is the key to our food sprice.

Class 4-B. Milk that is made into American cheese, average New York City wholesale market quotations with the usual allowance for-making and butter fat.

Last year's summer dresses make neat kitchen curtains. Gingham, striped calico, or unbleached-muslin striped calico, or unbleached-muslin may be used. They shauld not be heavy in weight to obscure the light. When desired, curtains may be half length.

Chlorophyll is the key to our food supply. The forest, in addition to possessing this substance in the leaves off short, cut a deep rectangle out of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees of the trees for the food of the trees for the food of the trees for
