**OF INTEREST TO FARMERS**

**McKENZIE ON RADIO TO SUM UP TAX REVISIONS SOUGHT**

Farmers who listen in on the radio on Monday evening, January 28, will hear some facts of considerable importance to them concerning tax legislation in New York State advocated by the New York State Farm Bureau Federation, according to Enos Lee, president of the federation.

The speaker will be H. C. McKenzie of Walton, N. Y., tax expert for the state farm bureau federation and formerly employed in that capacity by the American Farm Bureau Federation. Mr. McKenzie will represent farm bureau members at Albany this year in an organized effort to secure a general revision of the tax laws. According to Mr. Lee, as the laws now stand, they constitute an unfair burden on the farmer and the farm bureau working with other farmer organizations of the state will undertake to secure desirable changes. Investigations of the National Industrial Conference Board show that for the year 1922 the farmers of the United States paid 16.6 per cent. of his share of the national income in taxes as against 11.9 per cent. for all others.

In his talk Mr. McKenzie will outline the present situation with regard to tax laws, the state general property tax and school taxes and state the changes which will be proposed by the farm bureau. It is expected that a gasoline tax will be sought also.

Mr. McKenzie's talk will be broadcast from Station WGY, Schenectady, at 7:15 p. m., as a feature of the monthly farm bureau radio evening. Another speaker will be Hon. Peter Ten Eyck of Albany, former congressman. Mr. Ten Eyck is first vice president of the New York State Farm Bureau Federation. His subject will be "Organization in Agriculture."

**STATE COLLEGE TO HAVE POTATO SHOW**

Vegetable Gardening Department Will Handle Exhibit of Tubers at Eighteenth Farmers' Week.

A feature of the eighteenth annual Farmers' Week to be held at the state college of agriculture at Ithaca, February 9 to 14 will be the free-for-all potato show. Every potato grower in New York State is specifically invited to enter this competition, and boys' and girls' exhibits will receive the same consideration as the rest.

Any variety, named or unnamed, is eligible to the exhibit. Each entry should consist of twelve tubers. The prospective exhibitors are urged to pick out and reserve the best specimens from this year's crop now

before any of it is sold or otherwise disposed of.

Tubers should be selected for uniformity, freedom from blemish and disease, and should be wrapped in paper to prevent them from becoming dark skinned. All entries should be in the hands of the vegetable gardening department of the state college at Ithaca before February 5. They should be carefully packed and mailed by parcel post addressed to the vegetable gardening department.

Potato specialists at the college say the advantages of such a show are to help the producer to standardize varieties, arouse interest in production of a better type of potatoes and aid in the identification of any unknown varieties and diseases. It will likewise help the consumer, they say, by showing standards of excellence to be sought in buying potatoes, the variation in types and varieties which may be had and by stimulating the respect and demand for a higher grade crop.

The vegetable gardening men urge that the samples be mailed early. They say that in preparing for exhibits, medium sized tubers are best and that they should not be washed. Each variety, if known, should be labeled plainly inside the package. Exhibitors may show only one entry in a given class and first,

second, third and fourth prize ribbons will be awarded in each group. Any unnamed or incorrectly named samples will be shown in their proper classes and all varieties not classified will be shown in a special group.

After Farmers' Week the department will send each exhibitor a report commenting on the quality of his entry and, unless special arrangement at the time of entry is made, each exhibit will become the property of the college after the awards have been made.

**Agriographs**

Butter cakes bake best in moderate ovens, 350 to 400 degrees Fahrenheit.

A housewife with an inquiring turn of mind has discovered that popcorn may be shelled on a grater.

An inexpensive wire set brush in a small look design is even better than a dish mop for washing dishes.

Make the most of the fine flavor of winter squash by using a little sugar and plenty of butter for seasoning.

Pastry flour does make finer cake but when none is at hand two tablespoons of corn starch well sifted in a cup of bread flour will give good results.

**Around Our House**

**WHOLE WHEAT CRUMBS**  
A woman writes to the state college of agriculture, "We have recently begun using whole-wheat bread and have become very fond of it, but I do not know what to do with the crumbs. I have even more accumulating than when I used white bread and I can't seem to use them in the same way."

If the whole-wheat crumbs are toasted in the oven until they are crisp and lightly browned, they have a delicious nutty flavor. Used in mousses and ice-creams and in some confections, they take the place of nuts. A macaroon may be made by substituting the browned crumbs for coconut. Heated with one tablespoon of butter to each cup of crumbs, they are excellent if sprinkled over creamed meat or fish, scalloped tomatoes or vegetables or any dish containing cheese sauces. In date, fig, or any fruit or nut puddings, the whole-wheat crumbs are even better than those from white bread crumbs.

The county farm bureau is a clearing house for knowledge and ideas between the college and the progressive farmer.

**HURRY THE LAST WEEK HURRY**

**Of the One-Half Off Sale Suits and Overcoats**

To the belated buyers who have not as yet taken advantage of our great One-half Off Sale, we want to say that it will be necessary to act soon in order to reap any benefit.

**NINE ROADS CUT FARES FOR FARMERS' WEEK**

Rail Companies Give Substantial Reduction to all Attending Affair at State College From Feb. 9-14.

Railroad companies in New York have followed their custom of previous years this winter in reducing rates for visitors to the eighteenth annual Farmers' Week of the state college of agriculture at Ithaca. With the exception of Long Island, New York City, and the Putnam division of the New York Central, round trip tickets from any point in the state will be sold for three-fourths what they would otherwise cost.

These reductions will be in effect from February 8 to 14 only, with the final return limit to reach the original starting point not later than February 16. This gives farmers a considerable aid in the matter of financing their trip to Ithaca for the college's biggest week of the year, and authorities at the college say that it will help many farmers who could not otherwise bring their wives or families with them.

The railroads participating in this rate reduction are the B. R. & P., the D. & H., the D. L., the Erie, the Lehigh Valley, the New York Central, the New York Ontario and Western, the Pennsylvania and West Shore. The Lehigh includes also in its reduction, passengers from all stations in Pennsylvania between Tumkhanock, Pa., and the New York state line.

Announcement was made of these reductions thru the passenger department offices of the Trunk Line
