Healthographs

Watch and follow the "Healthbaby" clinics.
Take note of your child's progress. Grasp this opportunity to improve it and keep it normal.
Many little constructive criticisms can be made of any child's mode of living.
Constructive criticism of today's children will induce a decided benefit to our manhood of tomorrow.
The season is now decidedly winter.
Winter brings sickness.
Pay strict attention to avoidance of illness rather than depend on a peaceful convalescence.
Public health can be brought up to a certain natural maximum by earnest effort and "it isn't the individual or the arm as a whole; but the everlasting team-work of every blooming soul."
