Better Than Cross Words

There's a new game just started which threatens to jar the popularity of cross word puzzles. It's called "Broadway Nifties." The daily New York American is giving away gorgeous "Sunshine" Easter Hats and pairs of theatre tickets for the best Broadway shows for the readers who write the best "nifties" and the idea is running like wildfire. There are nearly fifty attractions playing at the New York theatres. Take the titles of these shows and twist them into a snappy little story or a reasonable sentence. It's a fascinating game. The daily New York American gives you full details about the Easter hat and theatre ticket awards.

Conservation Week

Governor Smith has designated the week beginning Wednesday, April 1, as Conservation Week, to be devoted, as a proclamation stated, "to the education of the people to the benefits to be derived from the conservation of our natural resources, our forests, our streams, lakes and rivers and their wild life—protecting all against destruction and wasteful exploitation and maintaining and increasing them for the common good of all, and I call upon the clergy, and all educational agencies including societies and associations to assist in bringing to the attention of the public the importance of protecting and replacing our forests as a future timber supply and as great natural parks open to all for health and recreation, the protection of our waters from pollution and waste and the increasing of the supply of wild life in the forests and waters."

Pioneer in Transportation.

Although man has covered the world with railroad systems and steamship lines, Mother Nature is the pioneer in transportation service. For ages she has been moving her own products from point to point by many different methods. One of the most unusual of these transfers occurs in the formation of bottom ice which freezes at the bottom of fresh and salt water bodies. Stones, rocks and other debris become imbedded in these cakes, which, after a time, move upward toward the surface, often with sufficient force to shoot high in the air. Then these pieces of ice, sometimes as large as a house, become huge "freighters," traveling considerable distances with the winds and currents. As they melt the stones and other fragments sink to the bottom again. That parts of sunken ships have been carried many miles in this manner has been proved by deep-sea divers, who have found them literally covered with stones that came from other localities.—Popular Mechanics Magazine.

CHEAP CURTAINS AT MANY PRICES

Because Quaker Lace (or Net) Curtains are used in many fine homes, home-makers sometimes get the impression that they are costly. The fact is that Quaker Curtains are cheap—at many prices. If it is first cost you wish to consider, there are Quaker Curtains and Nets—and beautiful curtains and nets—at any price you wish to pay. Indeed you will find some of our low-priced curtains at the windows of costly homes—chosen not because they were low-priced, but because they exactly filled the need of those particular windows. Yet in making Quaker Curtains and Nets this fact is constantly in view—that no matter how beautiful or how low-priced a curtain may be, its purchase is an extravagance unless it will hold its beauty through several seasons' wear. Here are a few of the many splendid types of Quaker Curtains and Nets we are featuring.

Quaker Filet Always in Style
Curtain styles come and go, but a neat filet net curtain is always in good taste. Quaker Filet Curtains are not only attractive and appropriate, but give years of satisfactory service. At \$2.95 to \$6.25.

Quaker Lace at all Prices
"Quaker Lace" curtains are also shown in panel effects with fringed bottoms and motifs above—goods of great distinction, priced from \$4.50 to \$8.50.

An Interesting Display of Cretonnes and Overdrapes—Home Craft Week

CURTAINS THAT ARE WORTHY OF YOUR IDEAL HOME

Did you know that you see only one-half of your curtains at a time?
Did you know that curtains serve the double purpose of beautifying the home from the outside as well as from the inside?
Did you know that no curtains serve this double purpose quite so well as Quaker Lace Curtains?
Today the whole world copies QUAKER—made right here in America. The whole world recognizes in Quaker curtains not only a leadership in quality of design, but, more important, leadership in creating curtains best suited to the requirements of the modern home.

Home Craft Week March 30 to April 4th
One treat we will offer you during our spring Home Craft Week is a specially selected display of these famous Quaker Curtains and Nets.
We're sure you will be pleased, not only with the beauty and adaptability of the curtains, but also by their reasonableness in price.

Delightful Curtainings
"Quaker Lace" yard goods are offered in large variety of Filet, Oxford Cross Net, Doric Net, Shadow effects and Penn Terra, priced at from 58c to \$17.75 a yard.

Shadow Lace Curtains
Well named are these curtains, one of Quaker's favorite designs, with just the right amount of transparency. Their laundering qualities are quite an added feature of their popularity. \$3.95, \$4.75 and \$6.25 a pair.

Quaker Oxford Cross Net

Sun-proof and Tub-proof

There is a growing vogue for the curtaining which gives a perpetual sunlight effect in a room. This is one of the distinguishing features of Oxford Cross Net, a light, airy, dainty window covering at \$11.50.

Casement Lace

In Casement Lace a delightfully shadowy design seems to be insinuated rather than woven into the net ground. It is never obtrusive, yet is there giving personality to your window decorations. The right choice for any room in which dignity is the decorative note at 75c and \$1.10 a yard.

Fringed Curtains

The Quaker-Lace Company were the originators of fringed curtains. Today they are more than popular—they are well nigh universal made, as they are, in such nets as Shadow Lace, Filet, Tuscan, and Sunshine. We offer them all made, ready to hang, at \$4.50 to \$11.50.
