

WEEKLY WORLD GLIMPSES

A Resume of World Events Prepared Especially for Andover News, by Mary Zoretzkie of the Department of Journalism of Syracuse University.

Calcutta—A grant of 3,900,000 rupees has been made for the work of emancipation, in answer to the appeal issued by the Maharajah of Nepal. Slaves are brought daily from various parts of the kingdom to the councils where they are declared free men by the Maharajah.

Berlin—Field Marshal von Hindenburg was elected president of the Reich by a majority of 888,000 votes over the nearest candidate, Dr. Wilhelm Marx. He is to be inducted into office as the first popularly elected president of Germany the second week of May, for a term of seven years.

New York—Street signal lights for motorists have been changed to the code in use practically in every part of the country. Red will mean "stop" in New York, and green "go ahead," after four years of just the opposite.

Portland, Me.—The Governors' Conference will be held at Poland Springs from June 28 to July 4. It has been definitely decided. President Coolidge is expected to attend the conference.

Lisbon—The resignation of Teixeira Gomes, President of Portugal and former Portuguese Minister to England, was rejected by Parliament by a vote of 106 to 14. He was elected in 1922 and has been prominent in public life in Portugal for years.

Paris—The French Office confirmed the report that the Chinese government has agreed to resume payment of the Boxer indemnity to France. Payment will be made in American dollars. The final re-establishment on a solid basis of the French Industrial Chinese Bank is expected to result from this agreement.

Mexico City—Foreigners owning property assessed at over 10,000 pesos in the state of Chiapas are to be compelled to devote one-third of their capital to the cultivation of the land, under a decree issued by Governor Cordova. Three months are allowed in which to comply to this decree, otherwise a surcharge of three times over the present taxes will be required.

Washington—The five 300 horsepower Packard engines in the dirigible Shenandoah are to be replaced by three 700 horsepower engines, increasing her cruising radius from 4,000 to 5,000 miles.

London—The gold standard in England was restored by a special license to the Bank of England to export gold bullion. Winston Churchill, Chancellor of the Exchequer, announced in his budget report in the House of Commons last Tuesday. The license is to operate until December 31, the date of the formal lapsing of the 1920 act prohibiting the export of gold bullion. Plans to restore the McKenna duties on imported luxuries, to cut the income tax and to increase the insurance benefits to the poor and aged were also advanced.

St. Paul, Minn.—The adjournment of the 1925 legislature has left Governor Theodore Christianson the executive chief of the state, responsible to the people, by the new reorganization bill, which compressed the activities of the state into 14 major units under the control of the governor, instead of the 94 independent bureaus and departments.

Margate, Eng.—British people will have to rely on foreign imports of meat this year more than ever before, due to the decline of cattle raising in Great Britain. The National Federation of Meat Traders' Association stated that the stock in England had declined 3,200,000 head since 1916.

Moscow—The Russian State Bank has issued orders against the acceptance of Canadian paper dollars by any of its branches, because of the large amount of counterfeit Canadian notes that have found their way into Sovietia within the last few weeks.

Salem—The eighty-second anniversary of the founding of the state of Oregon was observed on May 2nd on the banks of the Willamette river at Champco, where all pioneers gathered for the celebration.

Albany—Sheriffs of Albany, Schenectady and Rensselaer counties set under way a clean-up campaign last week against baseball pool syndicates, declared by Governor Smith to be lotteries in violation of the state law.

New York—A new American record for ten months production of milk and butter fat on two milkings a day by a Holstein cow was announced, the champion being one of a herd owned by H. Morgenthau, Jr., at Hopewell Junction, N. Y. An equivalent of 979.2 pounds of butter fat in the record.

Paris—The long proposed flight from Paris to New York will be attempted about July 20, announced Paul Terascon and Francis Coli, who will try to win the \$25,000 prize offered by Raymond Orteig in 1919 for the first non-stop flight from Paris to New York.

Albany—A statewide movement to bring about the amendment of local ordinances to enforce prohibition to take the place of the repealed Mulan-Gage Act, was evidenced at the New York State Mayors' Conference here last week.

Washington—Work upon the \$50,000,000 map of the United States, which will cover an acre and will be a complete topographical survey, showing every farmhouse, was resumed by 400 government topographers. Work has already been carried on for 45 years. Elevations, distances, routes, dips, and sharp corners will be shown on the map when completed.

Sofia—Burgaria's inability to raise 10,000 additional volunteers recently authorized by the Conference of Ambassadors at Paris to pacify the country will result in calling to the colors one of the army classes, unless another means of obtaining volunteers is found.

Philadelphia—A new fishing code to go into effect next January is now in the hands of Governor Pinchot. It provides greater protection for fish, reducing the number of fish permitted to be taken and prohibiting the use of all special devices, including nets, burrs, gigs and outlines.

Washington—An appeal for federal aid to renters in Washington has been made by the Housing Commission, since the rent commission, which has been operating to prevent over-charging, goes out of existence in less than a month.

Paris—Poland's renunciation of the last installment of the loan of 400,000,000 francs made last year for national defense needs, announced by the Polish Ambassador to France, Count Chlapowsky, is greatly appreciated in Paris since it will relieve financial difficulties.

Washington—A complication of the laws of American countries relating to women will be made, to serve as a basis for a reform campaign, which women of various countries are undertaking.

THE WEATHER

Following are the weather observations taken by the Andover Co-operative Station for the week beginning Thursday, April 30, 1925.

Table with columns for Temperature (High/Low), Sun, Precipitation, Barometer Readings, and Total.

This Week

By Arthur Brisbane
BUILD A GOOD NAME. OUR LOSS BY RUST. DID 'FATE' GET HIM? HONOR THE AUTOMOBILE.

What is the value of a good name? Financiers that bought the Dodge automobile company from the heirs of the two able brothers that established it have re-sold the company to the public (keeping a lot of stock for themselves) at a valuation in which the name Dodge represents \$30,000,000. The public eagerly purchases the stock and bonds at that valuation.

Similarly, when Hart Schaffner & Marx made a company of their business, the name which they had established, by business ability and SOUND ADVERTISING, sold for five times as much as the actual assets. And that name was probably worth TWENTY times as much as the assets.

Rust costs this country \$300,000,000 a year and scientists wonder how they can save that money. One way is to use copper or brass instead of iron, for water pipes, gutters, etc.

You are told that rust is caused by electricity generated by water and air coming together. To be found, make iron rust-proof. Meanwhile, wherever air and water mix, use copper or brass and forget your troubles for a hundred years.

Oscar Palmquist went down with the Titanic. But he came back to the surface, swam for hours in the icy waters, and lived until March 28th, last. His body was found in a shallow pond in Connecticut. He had wandered into the pond, and drowned.

That will cause solemn moralizing. "If you're born to be drowned" you'll never be hanged, and vice versa," some will say swim as hard as you like, the water will get you.

The Turks and millions of other Orientals, deeply religious and superstitious, firmly believe that the day of your death was fixed millions of years before you were born. God knows exactly when you will die and how. Therefore, the hour and manner MUST have been fixed from all eternity, otherwise God could not know. And to doubt that he knows all things ahead is impious.

Cold common sense, however says that Palmquist would not have been drowned, had he not wandered into the pond, and would have been drowned, when the Titanic sank, had he not been a strong swimmer. This world would be too dull if everything were fixed for us in advance. And if, as the Turks believe, all is settled in advance, and Allah and Mohammed, between them, know everything, each man's fate and destination after death, must be settled in advance. In that case, why struggle to reach Mohammed's Paradise? Struggling would not do you any good, if you're sentenced before you're born.

On motoring tours, throughout the United States, seeing America first, and seeing America in the most comfortable, satisfactory way, Americans will spend this year \$2,500,000,000.

This gigantic sum will be divided among the various communities along the popular motor roads of the country. And prosperity will increase greatly in the wake of the two and a half billions of cash left behind.

Respect the automobile, the men that make them, perfect and cheap. And if you have no automobile, go and get one. To be WITHOUT it is extravagance.

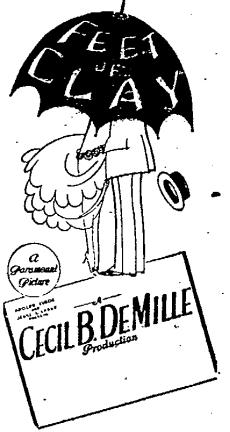

Daniel Clancy, father of twenty sons and daughters, drank a little too much in honor of his oldest son's approaching marriage, and was arrested. "Go free," said the Magistrate; "the father of twenty is entitled to a little celebration."

DON'T GET UP NIGHTS
John Lumpkin, Dayton, Ohio, says: "Come to 7 Carrie St., and I will show you 25 pieces of sperm that passed after taking Lithiated Buchu (Keller Formula). Had to get up 10 times and night for two years. Alright Now." Lithiated Buchu cleanses the bladder like Epsom Salts do the bowels, thereby releasing irritation, driving out foreign matter and neutralizing excessive acids. These are the causes of urinary ailments. The action of the bladder at night, Lithiated Buchu (Keller Formula) is not a cheap medicine. For further information, write to leading drug stores or Keller Laboratory, Wheeling, Ohio. Locally at Brundage Drug Company.

At The Auditorium

"Feet of Clay"
Cecil B. DeMille's first Famous Forty production is "Feet of Clay." The scenes in which scores of beautiful bathing beauties race on surf-boards; the society ballroom scenes designed by Norman Bel Geddes, who did the settings for Gest's "The Miracle"; the scenes and gowns

Lightning, Blue Ribbon Horse, Now in Movies
A Western whizzer, packed to the guards with adventure, wild riding and the clash of gun-toters, will be at the Auditorium, Monday evening. The picture is "The Empty Saddle," in which Pete Morrison, that sure-enough cowpuncher, is starred, and marks the first appearance of Lightning, said to be the most intelligent horse ever to appear in pictures. Lightning is a product of the American Army and lately won a blue ribbon at the Beverly Hills Horse Show.

Keeps Her on Edge. Everything may be a terribly cut and dried certainty with a married woman, except this: She never knows what her husband will get mad at next.

Put On Your Own Price. Every one stamps his own value on himself.—The price we challenge for ourselves is given us.—Man is made great or little by his own will.—Schiller.

Wellsville Laundry and CARPET CLEANING CO.

Did You Ever Stop to Think

THAT buyers are well sold on advertised merchandise before they start to shop.

THAT everybody knows that anything worth having is worth advertising, and if it is not advertised, it is a sure sign that it is not worth having.

THAT there is little use in trying to sell the people "something just as good." Those who do so lose customers.

THAT buying advertised merchandise means buying satisfaction. Buying the other kind, means dissatisfaction. Nobody knowingly will buy dissatisfaction.

THAT the average business concern that is a persistent advertiser of quality, usually has and always will have a good business.

THAT better business is built by carrying in stock what the people want and then inviting their business thru the printed page.

THAT advertising quality makes people want that which is advertised.

EVERY BUSINESS HAS IT'S BUSY AND DULL SEASONS. WHEN BUSINESS IS DULL, IT'S THE PERSISTENT ADVERTISER WHO GETS THE MOST BUSINESS.

—E. K. Waite, Secretary, Shawnee, Okla., Board of Commerce.
