

THIS WEEK'S CROSS WORD PUZZLE

By MARGARET HEYLMUN.

HOW TO SOLVE A CROSS-WORD PUZZLE

The first letter of each word is indicated by a number placed in the blank white spaces, and by referring to the list of words given below, you will find the definition. For instance, number one, horizontal, gives the definition of a word which will fill in all the white spaces to the first black space to the right. Number one vertical gives the definition for a word which will fill in all the white spaces to the first black space below. The black spaces indicate the end of a word, and no letter is placed in them. When completed, the puzzle must read both horizontally and vertically or across and down.

This cross-word puzzle contains, according to Margaret Heylmun, only very simple words, used in ordinary, everyday conversation. Miss Heylmun ought to know, too, because she is the originator of this interesting design. But in fairness to you, we believe we ought to warn you before hand that it is not going to be as easy as you would expect from her statement. We are sure that after working this one, you will have added to your vocabulary several words formerly not included in your everyday conversation. We did, anyway.

BIGGER AND BETTER BEANS

For minerals and vitamins Snap beans and leafy crops are twins. Altho the greens may win the cup, the stringless bean is runner-up. "When in doubt, plant a bean," was one of the war-time garden slogans. It is still good advice. Beans are a desirable second crop to plant where early vegetables have been harvested. The bean is easy to grow, "fool proof," as the fellow said. Do not plant too deeply, but not more than an inch in heavy soil nor more than two inches in any soil. Seeds are usually dropped about three inches apart in the row. For hand cultivation the space between the rows should be about a foot and a half. Stringless green pod is the most popular dwarf green podded variety. Good yellow podded kinds are Penelope, Brittle Wax, and Refugee Wax.

Not So Good

It is a "sun mask" to prevent sunburn which the fair bathers along the Atlantic coast are trying to use. This one worn by Ethel Ayres at Long Beach, N. Y. last Sunday.
