THIS WEEK'S CROSS WORD PUZZLE

HOW TO SOLVE A CROSS-WORD PUZZLE

The first letter of each word is indicated by a number placed in the Mank white spaces, and by referring to the list of words given below, you will find the definition. For instance, number one, horizontal gives the definition of a word which will fill in all the white spaces to the first black space to the right. Number one vertical gives the definition for a word which will fill in all the white spaces to the first black space below. The black spaces indicate the end of a word, and no letter is placed in them. When completed, the puzzle must read both horizontally and vertically or seroes and down.

By WILLIAM SCHERRILL We believe the cross-word puzzles we have been publishing recently

are much too easy. Next time, we are going to try to find a hard one.

However, we know you will get a lot of enjoyment out of this one. We

think you will get the most fun out of it by making a speed contest out

Tuesday, says the report of the state Department of Farms & Markets. There was a brisk demand for large and well-formed heada, free from tip-burn, but the inferior were neglected. Most of the business was transacted at \$1-1.50 per crate, with some fancy at \$1.75-2 and poor at 50-75c. Orange County, new-crop celery continued limited in reacept and slow of sale. Bunches brought from 85c-\$1. Rough stock packed in crates of one dozen stalks sold at \$4 per crate. Long Island green peas made their first appearance on Tuesday, selling promptly at \$2.50-\$3 per bushel bag. New Jersey shipments of peas by rail amounted to 10,000 bushel hampers, which sold at from 50c-\$1.50 per hamper.

Up-State Berries and Cherries Following the first up-state strawberries at the close of last week, shipments are now arriving in larger quantities. About 150 crates were received by boat on Tuesday in addition to the trucked-in supplies. Most of the berries, however, showed the bad effect of the recent hot wave. Lower river shipments sold at from 35-40c.
