By Arthur Brisbane

"Something Wrong," Gary. Flying, Diving, a New Era. Ford's New Plan. Rain, Corn, Price.

Judge Gray says there is something wrong with business conditions, and the something is LACK OF CONFIDENCE...

That's as sound as a steel ingot. Our troubles are mental. Put a plank six inches wide on the ground...

Yet, leaving out fear, it is as easy to walk such a plank a thousand feet up as it is flat on the ground.

The height of national prosperity makes some citizens dizzy.

This is a new age, and the things we do would have surprised not only our grandfathers, but ourselves a few years back.

Young gentlemen studying at Annapolis are told that hereafter an officer and a gentleman must know how to fly.

And out in the Pacific Ocean, down among the coral lanes, near the Galapagos Islands, scientists, with diving helmets on their heads...

For the first time in his several hundred thousand years of existence on this planet, man can truly say the earth is his and the fullness thereof.

With such wonders happening so rapidly, who knows but men may suddenly find a way to live on this earth without cutting each others' throats in war.

President Coolidge, it is said, will cut twenty-five millions a year from the cost of the United States army—a good idea.

The President's economy will be twice as valuable if he will arrange to spend the twenty-five millions cut from the army on the building of more flying machines.

Henry Ford will use United States ships, if he gets them, to take cars South and around into the Gulf of Mexico and bring fruit and vegetables back to the north.

That programme would be welcomed by millions. It would help to solve one problem of distribution and develop the great producing regions of the South as they should be developed.

Messrs. Fall, Doheny and Sinclair have been re-indicted for conspiracy by a Grand Jury in the District of Columbia.

It has been raining in the corn belt and that has cheered the farmers. The corn crop suffered for lack of rain.

Immediately the price of corn fell more than 5 cents a bushel, December corn dropping 98 1/2 to 93 cents.

At Yuccipa, California, all members of the First Methodist church witnessed the end of a Bible reading marathon.

It was a noble reading, all out loud, every word distinctly pronounced. The pastor, the Rev. R. D. Raley, stayed awake and read or listened throughout the 69 1/2 hours.

More deliberate reading, especially of Job and Isaiah, would be preferable. But any Bible reading is better than none.

In Tibet you can give a few coppers to a pagan priest with his prayer mill. You go your way comforted he grinds out 10,000 prayers for you on his little mill.

Those prayers are believed to do good, although verbal praying from the heart may be better.

The ad which creates or renews or increases the interest of the reader in your store—is a GOOD Ad.

At The Auditorium

"Broken Laws"

"Broken Laws" is a story about our jazz-mad age. It concerns a mother and son, and the disastrous effect of too much love on the life of this boy.

Her husband remonstrates with her; he sees the change in the boy and is grieved by it. He believes in the old maxim—"Spare the rod and spoil the child."

Next door Dick and Muriel Heath. Muriel is typical of the so-called

rending drama, pleads with the judge to let her serve her boy's term in his stead, because it is really she who is guilty.

MRS. WALLACE REID HOLLYWOOD, CALIF.

June 16.

Dear Friends: I am writing to you as a public spirited citizen of your community whose interest in the child problem is deeper than that of the average man or woman.

Will you make note of the fact that my new motion picture "Broken Laws," will be shown in your city soon, and will you do your best to see it yourself and ask your friends to see it?

Now is a splendid time to take stock of ourselves and our children. Are we doing right by them? Are we giving them the kind of home

Scenes from 'BROKEN LAWS' with MRS. WALLACE REID

modern woman. Dick, a book-loving and home-loving soul, in his desire for peace and harmony, has given Muriel full swing and she makes a fine mess of her life—all before her husband's very eyes.

The years pass. Ralph Allen dies. Bobby has grown into an arrogant selfish boy, a likeable, albeit lawless youth, a product of our jazz-mad age, Patsy is a typical modern flapper.

Disobeying all laws simply because he had never been taught to respect them, Bobby is sentenced to a term in jail for manslaughter. He has killed an old woman while out joy riding with Patsy.

Heartbroken, Joan, the mother, in a scene of stupendous and heart-

training, guidance and instruction they should have? Are we building them up to be honest, self-supporting, industrious, quick-minded men and women? Or, are we letting the urge of jazz, the insane pursuit of trifling pleasure and self-gratification of their slightest whims undermine their characters and distort their moral codes?

The education and upbringing of our children is today the most vital problem which we in this mighty country have to face and I call upon you as a virile, red-blooded American to see that as many people as possible attend the forthcoming performances as "Broken Laws" and absorb its timely message.

Sincerely yours, MRS. WALLACE REID

Short Review

A picture that offers something new in entertainment, something thrilling and beautiful, will be at the Auditorium on Wednesday, June 24th. "The Uninvited Guest" is that

MAURICE HILL

picture. New because it is partly photographed in natural colors by the Technicolor Motion Picture Corporation and beautiful because it is filmed in the Bahama Islands, famous for their loveliness.

It is a Submarine Film Corporation production presented by J. E. Williamson thru Metro and directed by Ralph Ince. The undersea scenes, the color-photoplay and the exciting story put it in a class by itself.

SAMPLE FREE

Send us your name and address, a post card will do, and we will mail free and postpaid, a sample copy of

Popular Mechanics MAGAZINE

the most wonderful magazine published. It contains the never ending story of the Events of the World and

400 PICTURES

100 Illustrated Pages every month, that will entertain every member of the family. There is a special department for the Radio fan; for the Handy Man and Farmer who like to use tools; for the Amateur who wants tips on how to do and make things; and Women are delighted with the "Household Tools" pages.

Popular Mechanics Magazine Company 226-224 E. Ontario St., Chicago, Ill.

HAVEN'T YOU WRITTEN AN AD THAT MADE A SALE?

Try it with those lots you own or with that improved property. Try it with that no-longer-needed furniture—with that used machinery or fixtures, or with that automobile. Try it with those desks, or office appliances that are not now in use! YOU CAN DO IT!

Around Our House

DRESS UP THE DINNER

A feast for the eye helps the food for the palate. Attractive service begins with attractive dishes; and the arrangement of the food and the little touches added for looks alone may make the difference between an appetizing and an uninteresting meal.

The opinion of Mr. J. O. Sexton, R. F. D. No. 2, Grass Creek, North Carolina. He says: "I have used Pe-runa for the last two years and received great benefit. It is fine for colds, grip and flu. I can recommend Pe-runa most highly."

Just a few doses of Pe-runa soon after exposure or first manifestation of trouble will usually break a cold or dissipate a persistent cough.

Two generations have known Pe-runa in its astonishing ministrations to catarrhal diseases.

TABLETS OR LIQUID SOLD EVERYWHERE

No Increase in the Price of Firestone FULL-SIZE GUM-DIPPED BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.

MOST MILES PER DOLLAR

Never another batch that will not jell

Now clear—sparkling—firm, yet tender—every glass of it

MAKING good jam and jelly is no longer a matter of chance, as it used to be for even the most skillful housewife. Now-a-days you can count on it that every glass you make will be successful.

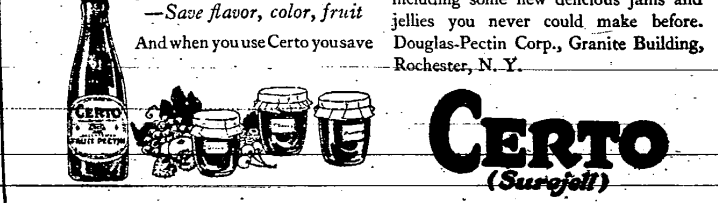

Now any fruit will jell—every time

For Certo does away with the reason for those failures you never could account for. It supplies the natural substance in fruit that makes fruit jell.

Some fruits have none of this jellifying property or very little; in all fruits the amount of it varies and grows less as the fruit ripens. But Certo gives this necessary jellifying substance to any fruit; with Certo any fruit will "jell" every time. You can now use your fruits when they are fully ripe—when the flavor is richest and the color most beautiful.

Just boil hard for 1 minute—Save flavor, color, fruit

And when you use Certo you save

CERTO (Surejell)

the rich juice and the delicious color and flavor of the fruit that you used to boil away. One minute's active boil is all you need with Certo. Your jam and jelly is lovelier-colored, richer-flavored than ever and you make half again more jam or jelly from the same amount of fruit.

Get Certo today from your grocer—use it for all your jams and jellies. A booklet with each bottle gives nearly 100 recipes, including some new delicious jams and jellies you never could make before. Douglas-Pectin Corp., Granite Building, Rochester, N. Y.
