First, the Home!

OUR homes are the temples of our lives. Our greatest joy and our first duty are to make the home livable and lovable. Money spent in making the home beautiful is a golden investment in happiness.

It pays to put *good* furniture into the home. You are never through *using* quality, never through *replacing* inferiority. We sell enduring furniture that outlasts its generation and constantly renews the pride of possession. You may here enrich your home with quality furniture at *reasonable* cost. It is extravagance to buy any other kind!

The Romance of Furniture

DURING the 16th Century seating furniture consisted mainly of backless benches and stools. Chairs with backs were few in number and reserved for the heads of families for guests of honor.
