Send for Mr. Park's latest book **Free** LIVE STOCK IN THE EAST

Every Progressive Farmer Knows the value of well grown milk cows. He knows that heifers that calve weighing twelve to fifteen hundred pounds with their first calves are worth double those weighing five to seven hundred pounds.

Can You Produce These Big Heifers? If you have bred your cows to good, big, purebred bulls, and if you feed the young stock liberally upon The Park & Pollard Universal Ration you will increase the size of your mature herd 25% to 50%.

Read all about it in Mr. Park's latest book "Live Stock in the East" free.

Batavia, N. Y., Aug. 29, 1924. The Park & Pollard Co., Inc. Our opinion of Universal Ration is best evidenced by the fact that we have booked 100 tons for future delivery. We would not have done so if we were not satisfied that we could maintain the growth and condition and milk production with this feed, and also effect a saving in feed bills of more than \$1200.00 annually.

Very truly yours,
(Signed) R. A. CHAPIN & SON.
