

### Ask Questions Before-- Not Afterwards

Millions of dollars are wasted on fake securities yearly, because the average person has a tendency to invest first and ask questions afterwards.

That's a thousand times worse than boarding a train and then inquiring where you are bound for, because it costs you a lot more.

When somebody offers to "let you in on the ground floor of a million dollar proposition," ask your questions first. This bank will know, or will find, the answers.

### Those first long trousers

Like the small boy who graduates into long trousers, any industry in certain stages of its growth finds many interested eyes upon it.

Thus the power industry of western New York has recently come of age. The super-service established by the Buffalo, Niagara & Eastern is a necessary step into a larger field of usefulness.

It is a cooperative effort of leading power companies to give better service to every community in the Niagara power zone.
