SUPER-SERVICE

Down in your coal bin

When you turn the switch of the cellar light and look at the dwindling pile of coal in your bin, you are staging a miniature representation of the power situation of

Coal is growing scarcer and once burned is gone forever.

Water power is abundantly available and continued use does not in the least diminish the supply.

This is the basic reason for the amazing expansion of the American Niagara power industry in so few years from pioneer experiments to a vast super-service reaching more than 2,000,000 people.

> The Niagara Falls Power Company sells electricity at the lowest average price received by any generating system on the North American Continent.
