L'OR every additional dollar's worth of electricity sold, five dollars more capital must be invested in new equipment.

It is so easy to turn a switch that few people realize what lies beyond it. Satisfactory light and power service can be rendered only by a highly organized producing and distributing system which requires an enormous amount of money for installation, maintenance and operation.

During the next twelve months the companies comprising the Buffalo, Niagara & Eastern will spend more than \$10,000,000 for new equipment, additions and improvements in the territory served.

> The Niagara Falls Power Company sells electricity at the lowest average price received by any generating system on the North American Continent.
