# What Will it Cost to Run it?

Unless you have the correct answer to this question, a Radio may be expensive. All Radiolas and some of the other sets use the 199 Tube. This Tube uses about one eighth as much current as the 201-A, which is used in other sets. The volume is about the same, usually, but of course, in an efficient set the 201-A is louder.

The 199 Tube has all the volume you need and is many times more economical to run. All my sets use these Tubes.

Radiolas • Atwater-Kent • Freed-Eismann
