Makes Pumping Up Tires Unnecessary

Chicago, Ill.—F. E. Hughes, Suite 138, 2512 Monroe, this city, has perfected a new air-tight valve cap that enables auto owners to pump up their tires once and never touch them again until punctured or worn out. Leading tire manufacturers, after thorough tests, have approved Mr. Hughes' invention and banished the old theory that air escapes thru rubber. One inflation lasts the life of a tire, and tire mileage is doubled. These caps retail for \$1.25 for set of five. The inventor wants agents and will send proof and samples free. Write him today.

The Living Room Is The Live Room

It is the index to your home. It is the heart of all the things that go to make home life the glorious thing it is.

What home-maker doesn't want to make this central spot of home joys and companionships—this focus of intimate home entertainment—truly expressive of the home spirit?

Maybe the living room needs a little making over—a bit of rejuvenating with the kind of furniture that will make it glow with an increasing measure of the home spirit.

There is no better time than this to renew this holy of holies—and there is no better place than here!

The Romance of Furniture

SPENET desks of the present were inspired by the splendor of 1660, which was the popular musical instrument of that period.
