people. But first they must be organized and must thought. present a solid front. No good could be accomplished with any wavering in the ranks.

The anthracite miners lost more than \$142,000,-000 in wages, but think of the time they have had to play golf and motor!

Signs of the Times

Li increasing since July, I - econding a the Mation of liner a study of the subject. In addition to this the wages of those employed have been increasing steadily. November, the average employment had increased Most notable during the month of November, says. survey, was the increased activity of the agricul ment of eight per cent., the employment index for this industry rising from 71.3 to 77.0 in November, while \$2.06 the average working week in this industry increased

rical manufacturing, iron and steel, meat packing, 'paint and varnish, wool and rubber industries. In all., eighteen of the twenty-five industries covered by the study showed gains in employment. Average work, hours per week in all industries showed a slight gain, from 48.3 to 48.5 hours.

These are facts that should encourage rural communities tho they are not effected directly by employment of labor in industry, however, is more than the laverage rural community realizes.

The producer of food is working for a home martket and if his customers are not employed, the demand, | for what he grows falls off and he suffers thru a de-1 cline in price.

Railway Pay Increases

THE Brotherhood of Railway Trainmen and the Order I of Railway Conductors have demanded increased have a bad influence on young people, because of wages from the principal railroads of the country and they depict, the producers' and insist on an answer to their demands by March 2nd. The total increases sought amount to between \$1 and \$1.64 per day, depending on the class of the ser-

who deplored the failure of the public to advance of about 20 per cent. over the existing wages from the pockets of the shippers between 85 and 901.

that Sir J. M. Barrie's "Peter Pan," and "A Kiss For It will have to come from those who patronize the Cinderella." which involved heavy expenditure, "have railroads because the roads cannot add this expense

to begin preparations for the production of another The amazing thing about the railroads is that they Barrie play for release about next Christmas, but ow- have been able, in the past few years, to render such ing to the meagre public response to such productions, a high character of service with net earnings of less directors of his company had advised him against it. than five per cent. on their property investment. Remarking that more than half the plays written When farmers are seeking lower rates on live-
