Changing Basic Law

THE Norris constitutional amendment, changing inauguration day and the date for the meeting o. congress was passed by the senate with only two dissenting votes. It was passed by the senate last year but failed in the house.

The amendment provides for the commencement of the terms of president and vice president at noon of representatives and is pending in the senate. in January.

becomes a part of the basic law, he would assume the among congressional districts as political sop. duties of chief executive ten weeks after election. Altho senators and congressmen take office at pres- fair for the communities justly entitled to a federal ber when the first regular session convenes, unless the were traded for votes.

president calls them into special session. a new congress would not have an opportunity to and states for political effect, but it will be wasted efregister its policies until thirteen months after it had fort if congress is committed to the legislation which been voted into power. The Norris amendment not the house has already approved. only provides that senators and congressmen shall as- The District of Columbia will get a big slice out sume their offices on the first Monday in January fol- of the appropriation, and the smaller cities and towns lowing the election, but that there shall be a session will have to wait. to assume his duties. This difference is intended dent if the vote at the general election failed to result less nevertheless.

in the choice of a chief executive. As a general rule, changing the basic law of the United States is a hazardous thing and should not be that we neglect to put any foundations under them. done until it has been given careful consideration The constitution has served well for our government because the men who framed it were far-sighted and patriotic and built upon the mistakes of Europe, which were then fresh in their memory.

The proposed change is not of vital importance and the dates that are suggested, for the beginning the president's, senators', and congressmen's would work an improvement.

Many maiden women are guided by the thought that it is much easier to get a husband than to get ric of one if he doesn't fit.

Clothes and the Man

"TRESS well and succeed," is a phrase much in use often misconstrued. Clothes don't make the --- mah, as anyone with a spark of intelligence knows, but they do have some influence.

You wouldn't expect a ditch digger to work in an expensive suit of clothes and you would think insane so bright for any people as it does for those who are an attorney who argued a case in court attired in over-

How's Business

THE United States produced and consumed more goods in 1925 in proportion to population than ever before in its history. Our standard of living has therefore been the highest in our history and is, of course, the highest in the world.

With 16,337,605 electric light and power custom-15,000,000 automobiles, 14,000,000 telephones, 0,000,000 phonographs and 3,500,000 radios, the American people enjoy more modern conveniences than the people of all other countries combined. What we re-i gard as necessities are usually classed as luxuries elsewhere in the world.

It is not by chance that America is so situated. It is in this country, and this one alone, that the individual enjoys the greatest freedom for developing ideas, lenergy, ambition and initiative. The result has been a growth without precedent in the world's history. With these facts in mind, why should anyone about business? Never did the future loom inhabiting the United States of America in the year

All the chronic complainer needs to do is to take stock of what his opportunities are and go to work. It he complains of alleged inequalities that exist, he can't give his best thought and effort to his own business. The people who prosper are those who do not comnever affected any other manner of dress, regardless plain because some other business is making more
