that has as yet been made.

It is common knowledge that proper care of the teeth is essential to good health. Pyorrhea and practically all other common diseases originating from improper care of the teeth, owe their origin to lactic and other acids that develop when food particles lodge between the teeth and decay; these acid-forming organisms are protected by a film.

To be effective, a dentifrice must accomplish two things: First, y must remove the film, and second, it must neutralize these mouth 🖫 acids. True Milk of Magnesia is admirably adopted to perform both 🛱 of these services without injury to the teeth or to sensitive gums. The Rexall Milk of Magnesia Tooth Paste contains 44% of True In Milk of Magnesia. Therefore, it is only natural that it should be in popular use by those who have pride in the appearance of their

site to what we desire. In other words, we meet with reverses. Everything goes wrong. We are down and out. Probably sickness is the cause, or one of a hundred causes. Nevertheless when this state is reached there are two essentials out of many necessary to keep body and soul together, that is food and clothing. Who will supply these until you are again established successfully no matter what your vocation? The firms outside your community that you were so generous in your support when in the hey-day of your success? The firms who took money for your purchases on the basis of "assumed bargains," but who were not interested in you from any other standpoint? No! It will be your home will not cost over a dollar, and each Allegany county \$347,800 for schools merchant who will be the first to open up his books and say: "Why yes, you have always lived among us, Jim, you can have anything \$\ \int\ have them returned. you want until you are again established. Charity! No! It is the 🕉 merchants' community spirit predominating, but mingled with it is the pride of brotherly love. He knows you better than you do him. He had an interest in you all the time, yours was neglect. Don't wait for reverses to find out how good your merchants are. Do i now. You'll both feel better.

This is not a theoretical proposition. Every day in your own community the merchant is called upon to aid in one way or another those who have met with adversity. Never has he shirked his responsibility. He is at all times willing to stand back of his community.
