In such intimate details,

Are men more particular than women?

Frankly she had never given a second thought to the matter. It was an embarrassing thing to ask for anyway, so she took what the store clerk gave her and supposed it was good

But what made her think about it now was the package her husband had brought home. He hadn't said a word about it to her. But this morning she noticed it in the bathroom... It was a roll of FLEX-O. FLEX-O is the supersoft, super-sanitary toilet tissue. Its quality recommends it to the most fastidious. Its very presence in a home suggest discrimination in details of personal matters. Yet at 10 cents a roll, 3 for 25 cents, it is available to every home of refinement. SCOVILLE, BROWN & CO.
