# A Martyr for the Cause of

THE entire nation has been shocked by the wanton where a clear-cut issue of right and wrong, honesty killing of Don R Mellett, youthful crusading editor and dishonesty is plain and can be distinguished from of The Canton (O.) Daily News. Officials and citizens other issues, he always votes right. agree that the murder was a thrust at the very vitals of law and order.

Like a captain leading his forces in battle, Mr. many places in this country is getting a strangle hold need to worry about the future of America. upon government. Vice runs rampant in hundreds of cities and towns in America. Nearly every day we read that public officials, charged with the enforcement the boat isn't the only one drowned. of all laws, have been arrested and exposed for grafting or laxity in office.

Corruption in public office should not be tolerated. Don Mellett, a born fighter, stood alone for weeks in THE summer scratch or slight bruise, insignificant as his battle to rid the city of Canton of thieving office- they may seem, are a dangerous hazard because of holders, rum-runners, drug peddlers, gamblers and gun-the possibility of infection. Public health agencies men. A brave and courageous editor, shot down, the urge that this type of injury not be regarded too lightvictim of cowards who were afraid to fight him fairly. ly. Vacationers, in particular, will take heed if they rises in indignation. Canton realizes more forcibly poisoning, which is frequently fatal. now what Mellett was fighting for and why he was A Red Cross statement says there are just four

zens, in all cities, should rally to the active support of gauze bandage and fasten it with adhesive tape. newspaper editors and officials who have the courage Follow these simple precautions and you will nevto defy the powers of evil. Crusading editors usually er have to call the doctor for a simple thing like a / have the mere approval of the better element of their scratch or a bruise. Physicians are usually scarce communities, but not much active, virile, efficient en where vacationers foregather and the wise vacationist couragement and assistance. Indifference on the part will be careful. of the citizenry only serves to help the vice rings.

### College Training

TIIGH school graduates have been out of school lon enough to realize that there are problems outside about their golf and the women their hair. of school books-much bigger problems when they reach the point where they must decide what path to follow in life.

The summer after high school is completed, is a TVERY day affords a new lesson on the danger ing some liberal arts or technical school. influences his life more than he now realizes. In the which produce cripples.

to make himself more capable, his life purposeless. have an entirely different significance. Giving a boy or girl four years more of education after they have completed a high school course, means an appeal for more care and less reckless abandon

parents and children. Countless numbers of high school graduates are lost to higher education because not enough interest is variety, but common sense beats them both. shown in them by their parents or friends who should advise them.

The foundation of government is laid upon an enlightened intelligence and the real creative ability that NOTED physician gifted as a writer praises golf for develops the country is supplied by the people and not A every age and condition of life among men and

young man and woman should seek knowledge to be young men are proving their prowess by winning all and senators attempted to pass bills better equipped to function as citizens of the United the championships and the old timers-are forced to that would benefit the agriculture of States. Ignorance is a moral and economic waste and take a back seat. education is the only means of overcoming it.

eat at home they look for the menu.

#### Watch the Thermometer

THERE is no theme that engages the attention of the courses are springing up all over the country, conversation. Now and then you will find someone who ruly regarded as backward. professes no interest in whether it rains or snows, whether the sun shines or the sky is cloudy, but put it down that this type of person is not honest about stomach trouble. this particular matter. Everyone is interested in the weather because it affects everyone.

Some say that when the temperature is high, you sause the flies don't, should forget it in order to keep cool. This is the worst kind of rubbish. If you watch the thermometer, you will be better enabled to live right and be more an automobile accident. physically fit for the strain which the heat places upon

Keeping in mind the temperature is important be- shone players on a busy day. cause it is a constant warning, when the mercury, 484 high, to eat light foods and not over-exert yourself.' The thermometer tells you when you should stay in the idicule- from your best friends. shade, if you are not accustomed to the sun, and otherwise to conduct yourself so that you will not be subject! to the bodily ills common when the heat is excessive. be a kick to soft drinks after all.

#### The Backbone

THE intellectuals write novels and finely phrased; magazine arti-les about Main street. They imagine themselves delightfully sarcastic when they allude in [ a jocular vein to the citizens of the "hick" towns who are content to remain at home and have a home. They make three meals a day that way and no one | | envies them for it. Meanwhile the average citizen of Main street keeps plugging away, the backbone

The average citizen preaches no sermon, but lives one. He doesn't concern himself much with graft or corruption, divorces or scandal in high life, bootlegging r the 18th amendment.

He doesn't belong to a dozen or so clubs which sit around and talk about the boy and girl problem. He is too busy raising a houseful of them. He reads the holdup stories, the illicit booze ring

murders and the big city scandals in a detached way, for diversion, much as he reads) a good detective story or sees a thriller at the movie He has a garden and an automobile and a radio. too, sends his children to Sunday school and supports

the church. He takes a holiday now and then, as much as his limited means will permit, and it's a holiday for the whole family-not just himself. He mows his front yard, carries out the ashes, fires the furnace in the winter, cleans up his back yard,

plants a garden, pays his bills, rears his family, attends to his own business and lets others, too young to understand, or too old to do anything else, carry the troubles of the world on their shoulders.

He is too busy making a living to be indignant / long at a time, too interested in his home to stay interested in politics and feels that regardless of what happens, all will turn out for the best. He has no sustained interest in public affairs, but

He is the head of the family, the taxpayer, the bulwark of his home community and of the nation. He is the typical American and so long as the bulk Mellett has fallen a martyr to a system which in too of the citizens are like this average citizen, there is no

The sad part about it is that the fellow who rocks
