"Answerable Courages" '

To the doubters who feared the Mayflower's adventurous voyage and the terrors of the New World wilderness, stout William Bradford records how it was answered:

"That all great and honorable actions are accompanied by great difficulties and must be both enterprised and overcome with answerable courages."

Only 17 years ago the Niagara, Lockport & Ontario Power Company undertook to transmit Niagara power to Syracuse. On all sides doubters rose up to insist that such long-distance transmission of electric power was visionary and impractical. Financial support was obtained with the utmost difficulty. Failure was freely prophesied.

Syracuse today uses twenty-five times as much electric power as it did in 1907. It is all supplied by the Niagara, Lockport & Ontario Power Company.

> The Niagara Falls Power Company sells electricity at the lowest average price received by any generating system on the North American Continent.

Wellsville's Community CLEARANCE

Starting August 10 and Continuing Until the 14th

The merchants of Wellsville are planning a big mid-summer bargain festival that will reduce their stocks and make room for the new fall merchandise that will soon start to arrive. You are invited to take advantage of the wonderful savings this five-day sale affords. The many stores and the many bargains make this an event that you cannot afford to miss. During the week the Swarthmore Chautauqua will be held in Wellsville and the programs they offer are particularly attractive. The entertainments are given both afternoon and evening.
