Spread the "Golden Rule Complex!"

and to the ordinary conversation of daily life the fre- which every housewife knows the value, have checked quent use of the word "complex" in a special sense. A the "away from home" movement, and it is quite posgreat deal is said about the "inferior complex," the that there will be a general movement in the "fear complex." The term is used with reference to other direction, namely—back home. all sorts of ideas and actions which those who employ Why not do what we can therefore, thru our banks it do not like and it generally carries a bad connota- and our civic organizations, to encourage this home

the better and more beneficial traits and inspirations can usually be remedied. And there are others who of men and women. Most people have good impulses are waiting for the cost of building material and laas well as contrary ones. The desire to help others, to bor to come down. But we are not going back to the be kind and tolerant, to be of use to neighbors, both pre-war standard of prices very soon, and building kind of "complexes" can be cultivated, stimulated and idea is encouraged in every legitimate way.

guided to aid in accomplishing some ulterior object. Doubtless this is the basis of much effort that goes un-) der the name of "propaganda." By appealing individually to the "fear complexes" and the "envy com-) plexes" and the "hatred complexes" of large masses of] people, those who use this method hope to excite and

stir to action one group or one nation against another. Let us suppose, for instance, that individual men est prosperity in the history of federal reclamation. and women, with the factions, groups, and nationalities they all possessed a "Golden Rule Complex" in a more others in concrete, practical situations of daily life laurels abroad by swimming the English channel—the about as they would like to be treated themselves. first woman who ever accomplished the feat in the hi. Suppose that they discovered what immense advantage tory of the world. would accrue to themselves and their fellows from this

gles of human relations. Suppose that these individuals until she overcame apparently unsurmountable should cultivate and develop and enlarge their newly stacle. immensely beneficial? If we must have "complexes" and are going, 1, to

ulate and spread the "Golden Rule Complex." These long sunny days, with the motorcar and pleasant little trips beckoning invitingly, it takes a lot of enthusiasm to keep the back yard garden up to the

Youth a Public Asset

TOUTH of these days, called "modern" because it is prowess as a swimmer and held amateur titles and recof the present, has been the subject of much sur-lords for distances between five and fifteen miles, b prising comment, wondering speculation and not a fore turning professional. little unwarranted criticism. Observation beneath the surface by older folk who remember their own young-|would be saved if more people, particularly women er days and with some discrimination, will disclose that learned the art in their youth. All can't be Gertrude the youth of these times is different in no essential Ederles, but they can at least learn to swim well enough particulars from that of the past. Young folk now are to be able to take care of themselves in times of peril. full of abounding energy, feel keenly the spur of impulse, long for progress, knowledge and self-expression in action, just as young folk always have done. It will by the clothes they keep on wearing. be well for both the present and the future of any nation for its leaders to take advantage of these qualities of youth, guide them aright and use them profitably,

If young folk find that their abilities and their forward-looking vision are appreciated, that they are elders and that their abounding ener gies can be turned to account in doing essential worth while things of life, they will divert their thoughts and in such directions more and more, and away from non-essential and frivolous activities-to their own and the country's great benefit.

to go home and spend an evening reading "Robinson Crusoe."

Girls use mirrors to see if their faces are clean. and boys use the towel for the same purpose.

Home Ownership

* TVER since the advent of the automobile the humor-, ists in the newspapers and periodicals have been have noming jokes about how the people who have homes do la (not stay in them any more. And the great boom . apartment houses in the largest cities has added to the belief that the individual home is becoming passe. Doubtless this condition has been exaggerated, b

(if it is true that the people as a whole do not care so much about their homes as they used, there is more rea-Ison than ever to encourage the "own your home move-it. ment." Every enterprising city likes to pride itself on | the fact that it is a city of homeowners, whether it really does enjoy that distinction or not.

As a general thing the home-owner is a pretty good And he is more apt to stay in his home than the fellow who only rents parking space in an apartment. This is not saying that the apartments are undesirable. It doubtless fills a necessary place in our tity life, but the individual home is still the ideal to he

be strived for. The home owner is not apt to become a bolshevist. He feels that he has a little property right in his own la 'ity and country, and if he is ambitious, as most home lowners are, he wants to increase that property right.]. He is a taxpayer. He is interested in the improvements In his home city and is very apt to be a very useful itizen in general. Of course, the man who rents may be just as good and useful a citizen as the man who ha was his home, but this is not gainsaying the face that he home owner has it on the renter in more ways than i

A city or town therefore, cannot do itself or its 1 itizenry any greater good than in encouraging in 1. every way it can the "own your own home movement." 't will not do to say that people do not stay in their nomes after they have acquired one, because this is not ROM the theorizing and discussions of psychologists, rue. The latest inventions of science, including the there has spread to newspapers, to popular lectures actio, to say nothing of the electrical conveniences of

ownership idea? Some would-be home owners are de-It might just as well be used, however, to denote terred by lack of proper financing, a condition which to those close at hand and to those afar off, is fortun- costs are more apt to go up than to come down. Thereately an exceedingly common one in human nature. fore, the time to being to own your own home is now. It is declared that the unpleasant and injurious And the enterprising city and town will see that this
