Back to School Again

THE children, large and small, have turned their steps, but not their thoughts, back to school. Except in } rare cases, they don't want to go back. But why should'

day and go thru the same routine--study and recite. part of the nation," John R. McQuigg, national com-The great outdoors just outsile the window is beckoning to them. They know what it is out there because -no cares, no worries-just fun.

too, when the majority of them will become reconciled religious, professional and educational organizations to their lot. They will become absorbed with school September 21 to work out ways and means to get out activities and school friendships, and under the guid- the vote. ance of a thoughtful teacher, they will begin to take) an interest in their work. Then the battle is won.

great responsibility lies in the parents to form a strong to any group or organization in America. second line of defense. The teacher is helpless without support from home.

is not in a measure of yours.

Green quiets the nerves, according to an eye specialist. Especially greenbacks.

European Corn Borer

THE European corn borer is a comparatively recent are not far distant. pest, having been discovered in the United States) nine years ago. Some conception of the seriousness c this pest is obtained from the prediction of govern ment experts who say that it will do greater damage i the corn belt than the boll weevil in the cotton belt.

This is truly a calamity, not alone for the corn! belt, but for the whole country when the products of man's labor and the soil are destroyed. All efforts to improve the breed of corn and increase the yield, and acreage are set at naught when the farmer is compelled to fight an unseen enemy.

Falls to Detroit. It has since spread into New York, bread and water. dred thousand acres.

hundreds of employes of the department of agriculture and water the prisoners may have. were placed on duty along highways to prevent automobile drivers and others from carrying infested corn state. The judge revived an old "blue law" in passing out of the quarantined regions.

est quarantine regulations do not seem to hold the pest a growing number of people who believe that our law Rev. Gumore Returns to in check. It is steadily advancing at the rate of 25 to violators live too high when sent to jail or prison. 40 miles a year. This is demonstrated by the fact that mitting that having one's freedom taken away is punthe corn borer was 25 miles from the Indiana border ishment, some ground may be found for the argument last year and this year has been discovered in several that prisoners are treated altogether too well. Indiana counties.

whole crops are destroyed.

This is something over which the farmer may well be alarmed. Some may ridicule the warning, much as they did the army worm when it first made its appear-Iright, but there's a limit. We don't want the fashion gical Seminary. ance, but it is only too real when it destroys whole dictators starting any bare knee styles for men. fields after a farmer has spent the summer tending

Many Aims for Success Are Astrav

IR. JOHN E. ANDRUS, Yonkers millionaire, recently said that 90 per cent. of the graduates of Columbia, which was graduating an enormous who class, would not be successful in the various professions.

He said that these people ought to be educated rather for some hard Creek, West Greenwood and Highup, work. Most of the people who engage in the various professions are fail-13, to take up his graduate studies ures and they had better be sign painters or farmers. This is an old criticism which has often been leveled at the colleges.

There is some truth in it. Unfortunately almost all institutions of learning are engaged in the

business of turning out professional men, that is, men for white collar jobs. Too many mothers regard the school as useful for their children in He enabling them to escape from the necessity of manual labor. There is nothing inconsistent in earning one's own living by one's own

labor and at the same time being an educated man. To have an education " Twenty-eight miles of travel were or a broad outlook upon life does not necessarily mean that we are to make America alone can save the world, says Lloyd required for each Sunday's preach- a living by it.
