Avoid Business Interruptions!

Stopping and restarting a business, like stopping and restarting a railroad train, is expensive. There is nothing like quickly replaced capital to prevent serious interruptions in the conduct of a business.

Insure your business against stoppage by fire, through complete coverage with the proper policies in a Dependable, Prompt-paying Company. Let us consult with you for thorough and economical insurance.

A TRAVEL COAT

The One Indispensible Garment This Fall

Almost every social activity of the Fall, all Fall sports and the endless good times families, friends and young folks plan together-ALL CENTER AROUND THE USE OF THE CAR. And how necessary it is that every fashionable matron and miss possess a travel coat that gives an air of smartness when one steps from the car or is ushered to a seat at the football game. To English woolen mills the travel coat owes much of its smartness. From the small checks and patterns so small that they become novelty weaves rather than designs to the larger plaids of striking originality, it's the fabric that makes the coat, with sometimes a lavish use of fur as an added feature. The prices are so modest that after the purchase of a coat, there will be more left for dresses than you had planned.

Travel Coats \$19.50, \$29.50, \$39.50 to \$69.50
