BETTER BREAD FROM HARD KERNELS

That hard, vitreous kernels wheat have superior qualities bread making when compared with the starchy grains of the same class of wheat is indicated by a series of lenberger and D. A. Coleman, · United States Department ulture. This belief was recogwhen the official United States grain standards were promulgated, 4 and the percentage of hard and vitreous kernels was taken as the basis 🛣 for establishing subclasses for the hard red spring, hard red winter,

durum, and white wheat classes. Cover baked apples when they first start to bake and they will not get too brown before they are ten-
