### Water Power

ONE must be unusually intrepid to be willing to the Republican State Committee is warming over the Bureau of Statistical Research, based on the unfortunrehashes the old material it contained about statement issued in reply to the Baumes Report.

Not content with the repetition of this old story. It would seem that the citizens of New York State had spoken rather emphatically on this subject at least at three elections and made clear that they prefer Governor Smith's policy of dealing with water power to that proposed by the Republican party. Nev- A radio broadcasting station that property rights t er was water power more clearly an issue than it was  $\frac{1}{1}$  the air must be recognized just as property rights on in this last campaign when the Republican party policy and that of its candidate favoring private ownership sal to retain ownership of power resources in the hands of the state itself. Some parties never learn and the periority right in that particular part of the ether. Republican party in this state seems desperately obstinate and unwilling to profit by any lesson no matter how unmistakably it has been given
