The Dunes Are Indomitable

COME time ago the writer visited the wild sand duner country of northern Indiana.

This sandy waste stretched along the southern shore. of Lake Michigan between Gary and Michigan City.

The high sandhills are ages old. Some are "wander-|teaspoons of soda, one teaspoon of ing dunes." Moving slowly thru the years they have cinamon, same of cloves, nutmeg and worked eastward. In their track new dunes are born, flour to make a medium batter. As more than paid me for the effort it Others are vexed and on their sides sand cherries and semple sales and a semple sales to the stunted pines struggle for existence.

Indians have come and gone; pioneer scouts have the other ingredients in order. given place to adventuresome settlers and they in turn have made way for the teeming city bred; but the dunes have remained.

Over them the great invention of the ages had. cradle and a culmination.

Here Octave Chanute made experiments with glid-ladd one cup of boiling water, the is back safe and sound. ers, giving his information to the Wright Brothers later mond on. And here day and night great roaring planes fly mon. Mix altogether and bake in who laughs loud and long about it overhead carrying the mails from Cleveland and Chicago.

The dunes have outlived the wilderness; they continue untamed in the heart of civilization.

In their enduring ruggedness there is a message of inspiration that helps one who feels it to "hold on" in the chopped raisins, one bowl vinegar, by addressing a

The face of the dunes is like the face of the common people. It is grim, determined, enduring.

It possesses neither the kingly grandeur of the towering mountains nor the abject serfdom of impotent

Thru the passing chiliads it has remained, remained in spite of wind and wave, remained one of the enigmas of geological endurance.

Buffeted, driven about, torn asunder, the particles yet remain, and remaining, combine in lines that alter day by day, that move, that retreat, that advance; but lines that lie in the shadows of evening, gray, gaunt, heaten and deformed-but sublimely everlasting.

In the face of the dunes there is seen this example of endless endurance.

In its barren beauty there speaks a message of grim courage and indomitable lasting power.

James Oliver Curwood Interpreter of the Mystery of the Far North

LIE writes of the land of strong hearts. Among its I snowy wastes the clean wind blows free, lonely trails wind ever farther from the haunts of man, adventure awaits every hour of life. You will enjoy many fascinating hours in a Curwood book.
