OUR KEYNOTE: "lf There is Not a Way, Cut a Way."

Congress, at the Postoffice at Andover, N.

### Birds—Greatest of Friends

LTHO some varieties of birds are considered a great). nuisance by farmers and others, it is doubtful that want the humiliation of a wild shot or a miss. any of these feathered tribes are more destructive than

Birds are the natural friends of mankind. Scien-ling at a mark. tists have declared that without continued research and the employment of improved means of combating in sect pests they would overrun the world and destroy all other life, including man.

ons, a species of flea, may in a year produce more office. They never shoot at random themselves, and the poor will be studied and worked ties supervises more than 1,000 charities of both a public and printer of the charities of the charities of both a public and printer of the charities of the charitie The rapidity with which certain insects multiply is a tomtit, will destroy 1,500 of these in a day; a part they do not care to serve as targets for people who do. ridge will eat 30,000 white grubs in a year. Various bullet into the center of a mark, but any kind birds have their favorite insects upon which they prey, but all eat practically any insect which crosses their

With this ever-present menace of insects to combat, we can hardly have too many birds. Not only out of humane sentiment, but as an actual protection to civilization, the birds should be spared.

After all nobody dislikes a small town except the city person who was born in that town.

### Worth A Trial

THEN the evening meal is over and you indulge your hour or two of reflection, is your business uppermost in your mind? It shouldn't be. It but adds \_\_ to the general mental fatigue which already weighs

Possibly you have a home, a lawn, a back yard is his cousin in the great city. and a garden. Thinking and planning for their imrelaxation it requires.

wonderful results if employed in the proper manner, fairs that is not known and understood by the man in tutions receiving public funds. whereas continued concentration upon affairs of busi- his roral home, for it is thru his constant search for ness will blunt your intellect and weaken your powers advanced knowledge of a practical nature that h of perception. Grass will not grow without water to nurse

along, and neither will the brain continue to function without the rest that is necessary to replenish its exhausted vitality.

How true it is that many a man's home life is un pleasant because his wife married a grouch.

# Making Young Men

THOULD you like to have your boy turn out to be a real 100 per cent. man physically as well as men-

# Who ever heard of cooking with COLD?

ND yet that's exactly what you can Ado, if you have an electric re-

frigerator. Jellied meats, crisp salads, dainty frozen desserts—you can use this marvelous servant to "cook" a complete summer luncheon or supper. What a relief on hot days!

Don't go through another summer without this wonderful convenience. The steady, dry cold of an electric refrigerater keeps meats and vegetables fresh indefinitely. Even cream stays sweet for days. And you'll be surprised at the amount you will save in both uncooked foods and left-overs.

You'll find electric refrigeration extremely economical, too. For never has your electricity been cheaper. While the cost of most necessities hasjustaboutdoubled, Niagara Power Service costs less than when a ticket
